New Dentist Arrives In Frisco

April 25, 2019

April 25, 2019 - PRESSADVANTAGE -

Texas based 65Dental, a dental care facility, recently arrived in Frisco. The clinic looks forward to serving the Frisco community to the best of their ability.

Relying on a team consisting of some of the most knowledgeable and experienced professionals in the field, 65Dental brings world class dental care services to the Frisco, Texas community. They are proud of their legacy of strong service to the other communities they have been a part of, and invite Frisco residents to visit the clinic to experience the benefit of 65Dental's superior dental work for themselves.

Oral hygiene is a serious matter that people tend to take lightly, as they often neglect the proper "everyday care" that is required to maintain a healthy smile. This can lead to the complication of minor issues, where they escalate into more serious and aggravated ailments. Often, this causes a negative impact on a person's life, as neglecting proper dental care can lead to other health issues that could end up costing the patient a lot of money and time.

Properly taking care of teeth, either at home or through a dentist, can help guard against the deterioration of oral health. While self-care at home is a good foundation to begin with, everyone concerned about their oral health should visit a dental clinic to receive more comprehensive care. Aside from their expertise and

experience, a dental clinic like 65Dental has the tools necessary to get rid of problems, like stubborn plaque, that a simple toothbrush cannot reach. This also benefits patients in the long term by saving them the cost of having to address a dental issue that has gotten out of hand.

Offering an affordable service, provided by qualified and experienced personal, 65Dental is committed to reducing the cases where their patients neglect to seek the proper dental care that they need. The clinic hopes to accomplish this by maintaining a welcoming, professional environment that encourages patients to seek their assistance as soon as it is needed. They place a high priority on looking out for their community's best interests, as well as enabling the convenience with which patients can obtain their care.

The services provided by 65Dental vary between simple, routine check-ups and dental cleanings, to more invasive procedures such as a tooth extraction. The clinic makes themselves available to patients of all ages, with specialized services that set 65Dental a step above their competitors in the Frisco community.

A representative of the clinic affirms that, "At 65Dental, we strive towards delivering the best service possible, at the best prices in the market" always looking for ways to improve our service to accommodate our client's needs better. This is very important to us, as patients looking for a reliable Frisco Dentist should receive only the best treatment." The representative added that, "New patients will find that we ask for their updated medical history; we do this because it allows us to make sure that any and all procedures that we carry out are in line with each patient's unique needs."

65Dental's commitment to helping the Frisco community is showcased in the company's website. It provides patients with many useful resources in addition to all the tools necessary to schedule a new appointment and ease the process of their first visit at a new dental care facility.

Many patients have expressed their gratitude towards 65Dental with positive reviews on the company's website. Taylor Cauldwell shared her experience, saying, "I had always been scared of the dentist, which caused me not to see one for years. I was recommended to see the dentists here at 65Dental, where I had to have a few procedures done. Nothing hurt, and everyone was so kind"and I am so thankful that I have now become a regular patient at 65Dental!"

Those who wish to schedule an appointment with a reliable and experienced Frisco dentist may contact Roxanne Mansfield of 65Dental, or reach out through the clinic's website. Interested parties may also connect with the practice through their social media platforms.
