

ClockOn Introduces Bookkeeping Service to Support Australian Businesses

May 18, 2023

May 18, 2023 -
ClockOn, a leading provider of workforce management solutions, has launched a comprehensive bookkeeping service to assist Australian businesses in managing their financial administration effectively. The service aims to streamline day-to-day financial tasks, allowing businesses to focus on core operations and enhance overall financial management.

In the MYOB Business Monitor for June 2021, it was highlighted that nearly half a million Australian SMEs have no or very low levels of digitisation in their business. The report also indicated that approximately 20% of SMEs are not engaged with digital tools across critical areas of the business workflow, such as compliance and supplier management. These findings underscore the pressing need for businesses to embrace digital solutions, including streamlined bookkeeping processes.

ClockOn's new bookkeeping service addresses these challenges by offering businesses accurate and efficient financial record-keeping. By utilising the service, businesses can ensure compliance with regulatory

requirements and eliminate the risks associated with manual bookkeeping.

Businesses can expect to gain a comprehensive overview of their financial health from the service, empowering them to make informed decisions for growth and success. The transparent fixed-price monthly packages provided by ClockOn are tailored to meet specific business needs, ensuring affordability without any hidden costs.

WIth the service, bookkeeping tasks promptly and accurately, saving businesses valuable time and resources. By entrusting their financial administration to ClockOn, businesses can focus on strategic initiatives and core activities, ultimately driving productivity and profitability.

Key services provided by ClockOn's bookkeeping service include BAS/IAS Lodgement, ensuring accurate filing of Business Activity Statements (BAS) and Instalment Activity Statements (IAS). The service also assists with bill entry, bank reconciliations, and supports businesses in seamless Xero setup and conversion.

To access ClockOn's bookkeeping service and embrace digital transformation, businesses are encouraged to request a quote via their website clockon.com.au.
