New Website Helps Travelers To Ski Resorts Avoid Unauthorised Taxi And Transfer Drivers

December 21, 2015

December 21, 2015 -
Compare Ski Transfers, which is based in Derbyshire, United Kingdom, has established a website that helps travelers to ski resorts avoid the pitfalls that often come with hiring unauthorised taxi and transfer drivers. The company has launched their website in an effort to help those traveling to various ski resorts to always ensure that they have hired a safe and reliable driver service while vacationing.

Rebecca, a spokesperson for the company, states, "In this day and age you would think that the concept of an unlicensed and illegal airport transfer service would be outlawed in any developed country but you would be wrong. Unauthorised taxi drivers, transfer operators and general touts are a growing global issue."

She points out that the transfer industry needs better regulation and controls but meanwhile, Compare Ski Transfers will provide the definitive guide to the safest, most professional and most reliable ski transfers in the Alps. The company also provides rate information to help travelers find the most inexpensive option available. The website helps consumers to avoid hiring unauthorised taxi drivers by putting them into contact with safer, more reliable services.

"Every single provider listed on this website is fully licensed, registered and insured so you can be sure that this is the safest way to travel to your destination," Rebecca says.

Those looking to hire a transfer can visit the site and search for cheap ski transfers in the area that they plan to visit. The company states that they have researched and checked every service listed on their site, to ensure only the safest and most reliable ski transfers are offered for contact. Rebecca states that by listing only trained and licensed drivers, the company can help to ensure that more travelers are safe as they go the ski resorts. All transfer services listed on the site are also insured.

With zero booking fees, the company states that any traveler can visit their website and receive a free quote for the transfer services they need. More about the company, including a list of the providers that they support, can be seen on their official website as well.
