But sometimes a plumbing leak is just an annoyance around the house. Regardless of whether your leaking plumbing is on your mind, it is crucial that you get leaks taken care of as quickly and efficiently as possible.? Signs of a possible leak include a dripping faucet, puddles around faucets, higher water bills, faucet noises or a moldy smell. There are some additional signs, but these are the most common according to Mr. Rooter.

If a client suspects there is a plumbing problem, Mr. Rooter offers plumbing video camera inspections. Rather than cause more damage to inspect a possible problem, the company offers a noninvasive way of inspection.
