

LASIK Surgery In King Of Prussia Performed By Award-Winning Doctors

July 22, 2019

July 22, 2019 - PRESSADVANTAGE -

Kremer Eye Center King of Prussia, based in King of Prussia, Pennsylvania, wants people to know that an important advantage they can offer is that award-winning doctors will be performing the LASIK surgery procedures at the eye center. The King of Prussia location is one of the surgical centers of Kremer Eye Center that offer surgical procedures like LASIK surgery for correcting refractive errors like astigmatism and nearsightedness.

Amy Stoller from Kremer Eye Center King of Prussia, says, "It fills us with great pride that five of our top surgeons have been consistently receiving the Top Docs awards from Castle Connolly and Philadelphia Magazine. They were named among the 2019 Top Docs of Philadelphia Magazine and Castle Connolly, and this was their fourth consecutive year of receiving the award."

The five surgeons of Kremer Eye Center King of Prussia who received the 2019 Top Docs award were Michael A. Aronsky, MD; Carol J. Hoffman, MD; Debra Malley, MD; George R. Pronesti, MD; and Anthony C. Zacchei, MD. Amy Stoller continues, "Kremer Eye Center's team of award-winning doctors are all dedicated to ensuring excellent patient care, long-lasting vision correction, and eye care results. To learn more about

our top docs, contact us to schedule a consultation with our professionals.?

Every year, Philadelphia Magazine and Castle Connolly Medical Ltd. collaborate to publish their Top Doctors list with the goal of giving recognition to the best doctors in the region. For this award, doctors nominate their peers and every nominee is assessed based on their professional and educational experience.

Dr. Michael A. Aronsky is a board-certified ophthalmologist specializing in advanced vision correction solutions. He has already completed tens of thousands of refractive surgeries. He also specializes in treatments for cataracts and the cornea with the goal of helping restore eyesight. He was the first in the region to use conductive keratoplasty, bladeless LASIK, INTACS® corneal implants, IntraLase enabled keratoplasty, and sutureless endothelial corneal transplants.

Dr. Carol J. Hoffman is also a board-certified ophthalmologist who has committed herself towards helping her patients get the customized eye care and vision correction solutions that they need. She has already completed thousands of LASIK surgeries and is a member of the Delaware Academy of Ophthalmology, American Academy of Ophthalmology, and the Delaware Medical Society.

Dr. Debra Malley is a board-certified ophthalmic surgeon who is focused on laser vision correction. She has obtained certification for using advanced bladeless LASIK technologies in treating nearsightedness, farsightedness, and astigmatism. She is also capable of performing medical aesthetic facial procedures. She was involved in research on the use of the excimer laser for refractive surgeries.

Dr. George R. Pronesti is also a board-certified ophthalmologist who is practicing as a LASIK and cataract surgeon after having served as the Vice Chairman of Maryland General Hospital's Department of Ophthalmology. By applying innovative techniques, he has been able to help thousands of patients see more clearly. He has also written articles for various publications and he has invented the golf bifocal.

Dr. Anthony C. Zacchei is another board-certified ophthalmologist and he serves as the Director of Glaucoma for Kremer Eye Center in which he was able to help patients from all over the Greater Philadelphia area get the cataract, glaucoma and LASIK treatments that they need. He has already completed over 35,000 successful cataract surgeries during the past 20 years. He also specializes in several innovative cataract and glaucoma treatments, including SLT, trabeculectomies, and ECP.

Aside from LASIK surgery, they also offer cataract surgery; glaucoma treatment; transplants and treatments for the cornea; eyelid surgery and oculoplastics; and dry eye treatment.

Those who are interested in knowing more about the eye surgery procedures or would like to schedule an appointment with a King of Prussia LASIK surgeon can visit the eye center's website or contact them via

email. They are open on Mondays, from 8:00 am to 7:00 pm; Tuesdays to Fridays, from 8:00 am to 4:00 pm; and Saturdays, from 9:00 am to 12:00 pm.
