July 15, 2019 - PRESSADVANTAGE -

Pensacola, Fla. ? Elite Services Quality Clean recently shared a blog post giving advice for summer carpet care. The Pensacola carpet cleaners write that summer carpet care consists of keeping the carpet dry, keeping it clean and getting it cleaned.

The first tip they shared on their blog post was to keep the carpet dry. They mentioned how popular water activities such as swimming, sailing, kayaking and other activities are during the summer, but they also mentioned how coming home from these activities can bring water into the carpet. ?When you get home from these fun activities,? they write, ?make sure to dry yourself before stepping onto your carpet. If not, the water you brought home will sit in the carpet, possibly staining it, producing a musty smell, or even warping the carpet.?

The second tip Elite Services Quality Clean shared on their blog post was to keep the carpet clean. They recommend vacuuming the carpet regularly and before shampooing the carpet. They write that ?with regular vacuuming, you?ll prevent buildup in your carpet, especially in high-traffic areas on your carpet.?

The third tip they shared on their blog post was to get the carpet cleaned professionally. The Pensacola carpet cleaning specialists say that carpets should be cleaned by professionals at least every two years. ?More specifically,? they write, ?the professionals should use a warm water extraction process when cleaning your carpet because that?s the best method to clean a carpet without harming it.? The team at Elite Services Quality Clean boasts of a high-quality warm water extraction cleaning service for their clients to ensure the best care for their carpets.

Since 1985, Elite Services Quality Clean has promised to keep carpets clean.
