Aside from the color, where a wide range of colors is available, it is possible to choose between a standard felt and upgrade felt. Standard felt is typically a 21-ounce blended fabric. It is heavy felt and has a higher nap when compared to worsted wool. Standard felt will usually last for seven to 10 years under normal use if the billiard table is maintained properly and not abused. Upgraded felt is made from worsted wool and is usually preferred by players who want a ?faster? table. Upgrade felt can last for 15 to 20 years as long as it is maintained properly and not abused.
