

Spokane Trophy Turf and Landscaping Announces Launch

July 27, 2015

July 27, 2015 - PRESSADVANTAGE -

SPOKANE, Wash. ? Spokane Trophy Turf and Landscaping announced today the launch of its business. The full-service company specializes in landscaping and lawn care services for commercial and residential clients. Brandon Arnold, Spokane Trophy Turf and Landscaping founder, holds a Bachelor?s degree in Turfgrass Management from Washington State University. For nearly a decade he has fine-tuned the art of managing turf while working on some of the most high-end and exclusive golf courses across the U.S.

?I strive to ensure that my residential clients have an attractive and well-manicured lawn that they can enjoy and be proud of, and that my commercial customers? landscaping makes the absolute best first impression on their customers and clients,? said Arnold. ?My goal is to provide stellar service, as well as share my knowledge and expertise with my customers.?

Spokane Trophy Turf and Landscaping?s roster of services includes mowing, edging, power raking, aerations, lawn fertilization, sod installation and more. Arnold noted that proper mowing is one of the most important practices in keeping a lawn healthy. Like most plants, grasses will branch out and become more dense if their growing points are clopped off. For Arnold, trimming, pruning, or edging a customer?s lawn is

like putting the icing on the cake. It adds a manicured touch. "A lawn just isn't finished unless it's been trimmed," said Arnold.

The company's fertilizing is intended to help customers achieve a healthy, green, "envy-of-the-neighborhood lawn." Spokane Trophy Turf and Landscaping serves commercial and residential clients in Spokane, Spokane Valley, Mead, Liberty Lake and Airway Heights.

Spokane Trophy Turf and Landscaping is located at 3157 E 30th Spokane, WA 99223.
