Perfectly Vivid Announces Amazon.com Partnership

December 23, 2015

December 23, 2015 -
Coronado, California based company Perfectly Vivid has announced a partnership with Amazon.com. The company has teamed up with Amazon to sell their tactical flashlight exclusively through the online sales portal.

"It's a great collaboration for everyone, especially our customers," states Dr. Christopher Vogelmann, designer of the tactical flashlight. "Customers will only be able to order through Amazon, but will also be able to receive their product in as little as just one day."

The tactical flashlight was launched earlier this year and has received stellar reviews from customers on Amazon. Dr. Vogelmann says that customers can visit the Amazon site to see positive feedback from those who have previously purchased the flashlight, "Visit our page and read firsthand why our product is one of the best tactical flashlights on the market," he says.

The tactical flashlight, which can be seen at http://perfectlyvivid.com/, is ideal the company says for anyone who needs a small flashlight that works like a larger one. Dr. Vogelmann says that industrial maintenance workers, nighttime dog walkers, and a variety of others have purchased the durable flashlight, and customer reviews are all positive for the product.

"It's one of the reasons for the partnership," he states. Amazon typically chooses products that gain high reviews from customers for partnerships, those that will benefit both the marketplace and the company who produces the product. In that case, Dr. Vogelmann says, both companies will benefit, as will customers because they can order easily on the marketplace and receive the benefits of Amazon Prime, in addition to fast shipping provided by Amazon.

Those who are interested can join Perfectly Vivid on their Facebook page at https://www.facebook.com/perfectlyvivid/?fref=ts, to receive further updates about this and other products that the company produces. The company states that since its initial launch, the flashlight has gained much popularity, prompting them and Amazon to discuss the partnership, which is now in effect. Dr. Vogelmann

says that anyone interested in learning more can visit the company on their official website or on their Facebook page.
