Encino Medical Spa Launches New Website

February 25, 2025

February 25, 2025 -
Glow Med Spa, a medical spa in Encino, CA, is proud to announce the launch of their brand new website. The company is known for their range of skin care treatments, including facials, masks, chemical peels and microdermabrasion. The new site enables people to review the products and treatments that are available, as well as book an appointment for specific types of treatment.

"We love our new website and can't thank our design team enough for the work that they have done," says Julianna Gottschalk from Glow Med Spa. "We feel that the new site really showcases all of the services that we provide and gives people an opportunity to get to know us on a more personal level. We're really happy to see that we are already getting a lot of visitors and that they are pleased with the way the site looks, feels and operates as well."

As a medical spa, they provide a number of highly specialized services. They also stock a variety of products, which they have all studied and found to be the most beneficial to their clients. Thanks to the new website, people can now access more information about all these products and services. Additionally, after reviewing the information, they are able to purchase products or make an appointment for a specific type of treatment.

"I go to Glow Med once every six weeks for a facial and I wouldn't go anywhere else," says Maria H. "I always

recommend them to my friends and family. I'm so happy to see they now have a comprehensive website as well. It makes it much easier for me to book my appointments, and also to share information with my friends about the clinic."

The new website, which can be accessed at glowmedspaencino.com, introduces people to the business and what they stand for. It then goes on to discuss the various skin care products and treatments they offer. It also highlights their waxing and massage services. All of these services can now be booked online for greater ease, enabling people to make an appointment when it is convenient for them.
