

Pest Control Organization in Indianapolis Adds "In-Demand" Service to Their Offerings

October 29, 2019

October 29, 2019 - PRESSADVANTAGE -

Recently Superb Termite & Pest Control Specialists announced that their new menu of professional services will include bed bug heat treatments for all of Marion County. The organization explained that they have been organizing this growth for quite a while and therefore are happy to be able to provide this new service.

"It has taken a lot of time, dedication and research to craft the best bed bug service we can offer of the utmost quality specifically for the benefit of our Indianapolis customers. Providing effective pest control solutions really is what makes us the happiest because gone are the days when simple methods were efficient enough. Nowadays it requires a professional for complete relief and that's what we aim to be for our customers," said the CFO of the company.

"As professionals in the industry it's important that our team consists of only the best experts that possess a true understanding of this particular pest," stated Superb Termite & Pest Control Specialists. The company added, "We often provide the information and documentation to customers upon request regarding our qualifications for treating bed bugs."

In addition to bed bugs the company also helps treat many other common pests like rats, mice, roaches, spiders and so many others. Like their bed bug exterminators, their general pest control team is also educated and qualified to handle these annoying pests. "We actually just hired a new specialist to add to our team that has been specifically trained in bed bug removal and prevention," the supervisor said.

Hiring a qualified and professional company to handle a bed bug problem is highly recommended for those who want to avoid additional issues. "Someone that doesn't truly understand this particular pest and simply goes by what they have read online, is not going to be efficient in giving the homeowner the relief they want," said Superb Termite & Pest Control Specialists.

Those interested can visit their website at termitecontrolindianapolis.net to learn more about their bed bug control services or need help with another pest like ants or beetles in the Marion County area.
