

Chem-Dry Of Park City Launches New Online Function To Schedule Carpet Cleaning Services

October 28, 2019

October 28, 2019 - PRESSADVANTAGE -

Utah based Chem-Dry of Park City has announced the launch of a new function on their website that allows clients to schedule carpet cleaning online. Over the years, the local company has maintained their client's convenience as their top priority, continuously seeking new opportunities to improve while delivering the essential services that Park City residents prefer. The conscientious care they show each customer and the excellent services they offer are two of the most prominent aspects that make Chem-Dry of Park City one of the best cleaning companies in the area.

As the company states, they first saw the need to create this function when one of their clients noted how complicated it was for them to find time in their schedule to make an appointment with Chem-Dry. Given that most of their clients work full-time, they have a limited window of opportunity within which to request the company's services. Moreover, the majority of this window often exists outside the company's operating hours. As a result, Chem-Dry states that they found many clients delaying a cleaning far more than they should due to this inconvenience.

This necessity for a convenient solution to schedule appointments is what led Chem-Dry of Park City to

create their online scheduling function. It allows their clients to make these appointments at any time of the day. While these requests are still processed and confirmed during the company's working hours, this creates more opportunities for their busiest clients, who will not have to deal with any hassle and do not need to pick up their phones to confirm an appointment.

Daryl Olsen, a spokesperson for Chem-Dry of Park City, says, "We hope that it will make a significant difference for several of our clients who have struggled in the past to schedule any of our services. It is undoubtedly more convenient for them, and it should be very easy and straightforward to use. We invite anyone interested in hiring our services to try out this new feature, as we believe that it is the most hassle-free and convenient for them."

As noted by the company, their online scheduling feature is rather simple and easy to use, proving to be quicker and more convenient than any other alternative. All of the information that may be relevant to the client is displayed on-screen, where they can choose the type of job, the number of rooms to be cleaned, and whether or not they desire any special cleaning service. A real-time estimate for the cost of the job will be displayed at all times until they submit their appointment, presenting a breakdown of the cost of each of the services they have chosen. More information on their online scheduling tool is available here: [Online Scheduling Park City Carpet Cleaning](#).

The convenience and reliability of the services provided by Chem-Dry of Park City are complemented by the company's extensive experience and knowledge. The local company relies on a team of qualified and trained experts to carry out all of their cleaning services, ensuring stunning and long-lasting results. Their processes claim to remove up to 98% of the allergens and bacteria in surfaces like carpets (which tend to be an infection focus, especially if left unattended for long periods). They are also completely safe and non-toxic for pets or kids, as the company guarantees the well-being and good health of the household.

"We are here to provide you with the best cleaning services in Park City, and we will demonstrate our expertise and knowledge in the results of our work," states Olsen. "Our mission is to help people live healthy lives, which starts with clean carpets and a healthy home. We love serving our customers here in our amazing community, and we will demonstrate our commitment towards them every time they call on our cleaning services."

Chem-Dry provides a wide variety of services to the Park City community and its surrounding areas, including Carpet Cleaning, Granite Countertop Restoration, Pet Urine Removal Treatment, Rug Cleaning, Tile & Grout Cleaning, Upholstery Cleaning, and Water Damage Restoration.

Those in need of a Park City Utah carpet cleaning service can reach out to Daryl Olsen to make further inquiries. They may also visit the company's website and make use of their online scheduling option to set a date for their next cleaning service.
