

Regency Estates ? Bolton?s Most Popular Estate Agent

August 03, 2015

August 03, 2015 - PRESSADVANTAGE -

Regency Estates have been Bolton?s well reputed and trustworthy agents since 1992.

Regency is an independent family business and with 30 years of experience in the property market, Regency aims to provide their clients the best advice and properties in town. They believe their history and expertise in the local market enables them to explain to clients what works and what doesn?t.

Regency?s consultants work from professional workspaces, and provide a range of services to make sure clients have a smooth experience in finding their dream home. The estate agents also provide services for landlords and tenants, both commercially and residentially.

Whether it is to buy, sell, rent or let, Regency estates use the most up-to-date industry tools. When using Regency, sellers know they have an agent that is focused on providing an unbeatable service from initial contact through to the final sale. Buyers can also use their website: www.regencyestates.co.uk and consultants are at hand 24 hours a day, so buyers are stress free at all times.

Regency?s clients Margaret and Jim, who chose the estate after little success with other agents say, "in our opinion, choosing Regency has been a success."

So why not make a move in the right direction with Regency Estates!

Regency has embraced the digital age with its new mobile app and by producing short guide books on Amazon for their clients to help steer them through some of the most turbulent aspects of buying and selling properties.
