Discover the Modern Way to Straighten Teeth: Invisalign Now Available at Family Dental of Teravista in Georgetown

June 19, 2024

GEORGETOWN, TX - June 19, 2024 - PRESSADVANTAGE -
Family Dental of Teravista has introduced their specialized Invisalign services in Georgetown, TX. This modern and discreet method is perfect for those wanting to straighten their teeth without the hassle of traditional braces. Under the direction of Dr. Brandon Hoffman, the practice designs custom clear aligners suited to each patient's unique dental structure.

At Family Dental of Teravista, Invisalign in Georgetown provides an alternative to metal braces. These clear aligners are nearly invisible, making them a great option for adults and teens who want to maintain their appearance during treatment. Made from BPA-free plastic, the aligners work to gradually move teeth into the desired positions. Typically, patients wear each set of aligners for about two weeks before advancing to the next set in the series.

Dr. Hoffman said, "Our goal is to offer the most advanced and comfortable options for dental care. Invisalign

allows us to provide our patients with effective treatment while minimizing the inconvenience typically associated with traditional braces.?

The Invisalign process at Family Dental of Teravista involves several steps. Initially, patients have a consultation with Dr. Hoffman to evaluate their dental needs and set treatment goals. Using 3D imaging technology, a sequence of custom aligners is created to match the patient?s teeth exactly. These aligners need to be worn for 20-22 hours a day and should only be removed for eating, drinking, brushing, and flossing.

As teeth start to move, patients transition to a new set of aligners roughly every two weeks. Regular check-ups at Family Dental of Teravista help monitor progress and allow for any needed adjustments. The overall duration of treatment usually takes about a year, giving patients a new smile in an efficient and discreet manner.

Dr. Hoffman emphasized, ?Patient education is a top priority for us. We make sure that our patients understand every aspect of their Invisalign treatment, from initial consultation to the final result.?

Besides Invisalign, Family Dental of Teravista in Georgetown, TX, offers a wide variety of other dental services. These include general dentistry such as composite fillings, dental exams and cleanings, dentures, and treatment for periodontal disease. The clinic also provides cosmetic dentistry options like dental implants, porcelain crowns, and veneers, ensuring comprehensive dental care is available all in one place.

The practice values patient feedback and actively seeks reviews to measure patient satisfaction. One review from patient Benjamin E. Needham, RL, speaks highly of the service, noting the professionalism, friendliness, and expertise of the staff at Family Dental of Teravista. Needham states that both he and his wife are patients and would recommend the practice to any family.

Family Dental of Teravista is dedicated to delivering high-quality dental care with a focus on patient comfort and satisfaction. Their state-of-the-art facility uses the latest dental technology to provide effective and personalized care.
