Acorn Tuckpointing Expands Chimney Repair Service for Comprehensive Masonry Solutions in Chicago

June 20, 2024

June 20, 2024 -
Acorn Tuckpointing & Masonry Restoration, a trusted name in the Greater Chicago Area since 1952, is pleased to announce that it now offers more comprehensive chimney repair service options. This family business, now in its third generation, continues to build on its long-standing reputation for quality and reliability.

The company provides a variety of services aimed at maintaining and restoring the structural integrity of buildings. These services include tuckpointing, masonry, caulking, grinding, chemical cleaning, lintel replacement, waterproofing, and the rebuilding and repair of parapet walls. Their commitment to using experienced and insured tradesmen highlights their dedication to high standards across all projects.

Chester, a representative from Acorn Tuckpointing & Masonry Restoration, stated, "We are constantly striving to meet the evolving needs of our customers. The introduction of enhanced chimney repair services allows us to address a fuller range of structural maintenance issues, providing a more complete service package to our residential, commercial, industrial, and institutional clients."

The chimney repair service options cover everything from minor repairs to full-scale rebuilds, addressing all necessary aspects of chimney maintenance. These include re-pointing and re-seating of chimney pots, relining chimneys, chimney rebuilds, and even chimney removal if needed. Acorn also provides complete chimney installation services, including the installation of lead soakers, flashings, back gutters, front aprons, chimney cowls, vents, and structural support steelwork. For more information on the expanded chimney repair service and other offerings, visit their website.

This expanded suite of services is particularly significant for older homes or buildings where masonry and chimney issues can often go unnoticed until they become severe. Water penetration, for example, can lead to extensive damage if not addressed promptly. The addition of these enhanced chimney repair service options aims to tackle such problems early, preventing further structural compromise.

Chester continued, "Our goal is to provide peace of mind to our clients. With our expanded services, they can rest assured knowing that their masonry and chimney needs are being looked after by a company that has been a staple in the community for over 70 years."

The company stays committed to delivering guaranteed quality and free, no-obligation estimates. This customer-focused approach has earned Acorn Tuckpointing & Masonry Restoration an A+ rating from the Better Business Bureau. Their expanded offerings reflect this dedication, ensuring clients receive comprehensive care for their masonry needs.

Acorn Tuckpointing & Masonry Restoration's services don't just stop at emergency fixes. Preventive maintenance is also a crucial part of their offerings. Their caulking and grinding services help preserve the structural integrity of buildings by addressing minor issues before they become major problems. Chemical cleaning helps restore the appearance of masonry, giving properties a fresh look without compromising their stability.

In addition to tuckpointing and masonry, the company excels in more specialized fields like lintel replacement and the rebuild and repair of parapet walls. Lintels are essential as they provide horizontal support across buildings, and timely replacement can prevent structural issues. Parapet walls, often seen as aesthetic features, actually play a significant role in the safety and durability of buildings. Acorn?s expertise ensures that these elements are both functional and visually appealing.

The company?s services extend to various types of properties. Whether it's residential buildings needing preventive maintenance, commercial establishments requiring structural repairs, industrial sites dealing with significant wear and tear, or institutional buildings needing regular upkeep, Acorn Tuckpointing & Masonry Restoration has the experience and skills to handle it all.

To make it easier for clients to access these services, Acorn Tuckpointing & Masonry Restoration offers their services seven days a week, from 6:00 am to 8:00 pm. They also provide 24-hour emergency services for urgent needs. This availability underscores the company's dedication to being there when their clients need them the most.

With over seven decades of service, Acorn Tuckpointing & Masonry Restoration has built a legacy of trust and reliability in the Greater Chicago Area. This latest expansion of their services reaffirms their commitment to delivering high-quality results that last.
