Home Instead New Forest Launches Live-In Care Services to Enhance Home Support in the New Forest

August 07, 2024

August 07, 2024 - PRESSADVANTAGE -

Home Instead New Forest has announced the launch of live-in care services. This new service aims to meet the needs of people in the New Forest community who require full-time assistance but wish to stay in the comfort of their own homes. The service will be available in Lymington, Brockenhurst, Milford on Sea, Hordle, Boldre, and nearby areas.

Home Instead New Forest's live-in care serves as a great alternative to residential care. Custom-built to meet the unique needs of each person, these services include companionship, errands, diabetes and mobility support, meal preparation, transportation to medical appointments, medication management, fall prevention, and general household tasks. The goal is to improve the quality of life for clients, enabling them to maintain their independence in a familiar environment.

This new service from Home Instead New Forest addresses an important gap in the area. Combining professional care with the comfort of home can positively affect mental and emotional well-being. By focussing on these aspects, the new live-in services aim to ensure not only that clients get the care they need but also that they enjoy a better quality of life.

Tim Oswald, a spokesperson for Home Instead New Forest, commented on the launch of the new services: "We are excited to offer live-in care services to our community. The need for round-the-clock care is increasing, and we believe that allowing individuals to remain in their homes while receiving comprehensive support will make a tremendous difference in their lives. Our goal is to provide immediate and effective care solutions with minimal waiting times."

Home Instead New Forest is known for its high-quality care, reflected in its 'Good' rating from the Care Quality Commission (CQC) and a 9.4 rating on homecare.co.uk. The company also has six 5-star reviews on Google, highlighting the satisfaction of its clients and their families. This new service is the latest step in the

company's mission to support the elderly and those with special care needs in the New Forest community.

The new live-in care services are especially important given the growing complexity of health care needs among the elderly. By offering support for conditions such as Alzheimer's, dementia, cancer, Parkinson's, neurological issues, postoperative recovery, and arthritis, Home Instead New Forest aims to provide comprehensive care. Each client's care plan is customised to address their specific needs, ensuring they receive the most appropriate support. More details can be found on their company website at homeinstead.co.uk/newforest.

In addition to health care, Home Instead New Forest also provides home visits that include companionship, home help, personal care, night care, day care, and respite care. This wide range of services ensures that clients' diverse needs are met, helping them live more comfortably and independently.

Tim Oswald further emphasised the importance of community-focused care. "At Home Instead New Forest, we understand that every client is unique. Our live-in care services are designed to offer tailored support that respects individual needs and preferences. This approach not only addresses the physical aspects of care but also promotes emotional and social well-being."

For more information about Home Instead New Forest's live-in care services, visit https://www.pressadvantage.com/story/68531-home-instead-new-forest-introduces-new-live-in-care-services-to-enhance-in-home-support. Additional details about the range of care options available can be found on the Home Instead New Forest webpage.

Founded on July 3, 2019, the company operates Monday through Saturday from 9:00 to 17:00 and provides 24-hour online support. The service area includes Barton on Sea, New Milton, Lyndhurst, Beaulieu, Totton, and the broader New Forest regions. This comprehensive availability shows Home Instead New Forest's commitment to providing accessible and reliable care solutions for the community. This new initiative aims to uphold and enhance its reputation for delivering high-quality, empathetic care.
