

Restaurant Supplies Company Now Offers Financing Options

January 07, 2016

January 07, 2016 -
Restaurant & Cafe Supplies Online is happy to announce that they now offer a financing option for their clients. The company, which specializes in furniture for restaurants, bars and cafes, typically receives large-volume orders, which made a financing option a no-brainer.

Now, clients can now get their furniture when they need it and have their establishment functioning properly without paying a lump sum up front.

Doug Stoutenburg from Restaurant & Cafe Supplies Online says: "We're so happy to be able to offer a finance option. We have come up with the best possible package, which far surpasses what is offered by either bank loans or cash payments. Effectively, it means people can get their supplies now and start earning money straight away. The service industry is cut throat and we hope that this is one little booster that will help many establishments actually be able to run their business more effectively."

The restaurant supplies company states that it takes just 30 seconds to apply for financing. No extensive financing statements are needed, and no huge deposit is required. Customers can enjoy the tax benefits and

deduct payments, and defer payments until after proper installation. They can also avoid financial reporting, match their monthly payments to their cash flow, and have ownership at the end of the term. Additionally, those with poor credit, past bankruptcies or those who are startup businesses can still be approved. Restaurant & Cafe Supplies Online feels that this is the best possible finance option out there at present.

"There aren't many other businesses who will offer similar benefits," adds Stoutenburg, "It certainly isn't possible to access all of those benefits if you were to go to a bank. We are really happy to be able to play an important part in making sure local economies can thrive across the country without putting an unnecessary financial strain on our clients."

Clients are encouraged to visit the company's website on rcsuppliesonline.com for further information about the various products they have on offer. Information on the financing option is also included on the website and gives more details about the application process and the various steps to take.
