

All Natural Night Cream Receives Another Five Star Review

March 02, 2020

March 02, 2020 - PRESSADVANTAGE -

Aya Natural, based in Upper Galilee, Israel, has announced that their all natural night cream has received another five star review on Amazon.com. The All Natural Night Cream Face Moisturizer is a 100 percent all natural, vegan, and cruelty free handmade cream. Only natural vegan ingredients are utilized, such as sweet almond, olive, jojoba, vitamin E, avocado oils, lemon peel, lavender, shea butter, and evening primrose essential oils. It is intended to be used as an overnight face cream that may increase collagen production that in turn may lift, tighten, firm, and regenerate skin. Wearing this face cream overnight may result into a well hydrated and young looking skin.

Jamal Hamoud, the founder of Aya Natural, says, "We are happy and proud to announce that our All Natural Night Cream Face Moisturizer has received another five star review from a very satisfied customer. We are certainly happy to receive these five star ratings for our products because it means that we are on the right track. Also, we believe that the success of our product is due to our motto that, "if you can't eat it, it doesn't belong on your skin." Just like all of our products, this is made from natural ingredients, with extra virgin olive oil (edible grade) as the main ingredient."

Shannon M., who gave the night cream its most recent five star review, said, "Rich but not greasy, and a little goes a long way. My skin has responded well and has stayed hydrated through the dry winter months when alternated with a lighter day cream. The aroma is pleasant, and subtle, and disappears quickly."

The natural ingredients of the All Natural Night Cream Face Moisturizer include olive oil, purified aqua, cetearyl glucoside, cetearyl alcohol, jojoba oil, sweet almond, shea butter, palm oil, avocado oil, honeysuckle flower extract, evening primrose oil, lavender oil, vitamin E, and grapefruit oil.

To complement the all natural night cream, Aya Natural also offers the best all natural moisturizer for face. This is the All Natural Moisturizer Face Day Cream, which is a non comedogenic skin moisturizer that may be able to bring back the vitality of the skin for both men and women. It can be used in addition to the All Natural Night Cream Face Moisturizer to provide the best results. The combination may possibly result in a younger appearance of the skin. This facial moisturizer has been designed to moisturize, nourish, and heal the skin, possibly producing a skin that appears firmer, healthier, and more elastic. It is also to be utilized as a day cream for minimizing wrinkles and tightening the skin. And it may be useful for very dry, sagging, oily, or combination skin. It has also been ensured to be free from parabens and that there has been no cruelty to animals in testing the product.

Another product offered by Aya Natural that can complement the night cream is a daily facelift serum intended for facial dry skin. This product is also intended for use by both men and women. It is a vegan anti wrinkle serum to hydrate the face. Its purpose is for active face skin hydration and for possibly boosting the collagen levels to provide soft and smooth facial skin. It may also be used as a serum to possibly make the skin look younger by treating dry, sensitive or combination skin. It may also be utilized as a non comedogenic skin lightening cream that may decrease dark spots, wrinkles, breakouts, and fine lines.

Aya Natural has also included jojoba oil as an ingredient for its all natural skin care products. This is liquid wax that has characteristics that are very similar to sebum, which is the wax-like substance that is secreted by the skin glands. As a result, jojoba oil may be used as a natural oil controller and skin conditioner.

Those who would like to learn more about the All Natural Night Cream Face Moisturizer, All Natural Moisturizer Face Day Cream, and All Natural Face Serum Moisturizer may want to check out their Amazon.com page, or contact them on the telephone or through email.
