?The San Diego Plastic Surgery Society plays a crucial role in maintaining high standards of care and fostering collegiality within the San Diego medical community,? We are uniquely positioned to support and inspire one another.?

SDPSS was established to promote ongoing education and connection among plastic surgeons in and around the San Diego community, and the organization now has over ninety members. It continues to evolve to meet its members' shared needs and interests as surgeons serving the same bustling local area.

In the new role, she plans to focus on advancing the society?s mission to promote excellence in plastic surgery through education and advocacy. ?One of my primary goals is to enhance the professional development opportunities available to our members,? she stated. ?By investing in our own education and skill development, we can stay abreast of trends and techniques to provide even better care for our patients.?

Dr. Gallus is also passionate about community engagement and patient education. ?Part of my vision is to increase public awareness about the importance of choosing board-certified plastic surgeons,? she added. ?Educating patients about their options and ensuring they have access to the safest and most effective procedures is crucial.?
