

Blue-Garuda Mobile Accessories Celebrates 100+ Amazon 5-Star Seller Reviews

August 17, 2015

August 17, 2015 - PRESSADVANTAGE -

Blue-Garuda are overjoyed with reaching this milestone as customer satisfaction has always been their primary focus and they will always strive in continuing to provide the best customer service possible.

Dominic James Head of Marketing had this to say, "The focus of this company will always be on providing great customer service and we want all of our customers to be 100% satisfied when shopping with us. Therefore reaching this goal is extremely satisfying and fulfilling but will we still look at ways of improving and going the extra mile."

The secret to attaining this achievement of reaching over a 100 5-Star Seller Reviews according to Blue-Garuda is by responding to each customer review personally whether good or bad. For them, customer reviews provides essential feedback on the things Blue-Garuda are doing right and what they need to improve on. Based on this they can then act proficiently and dynamically to each customer thereby enhancing the overall shopping experience.

Blue-Garuda have confirmed they will always endeavour to monitor reviews diligently and respond swiftly to

those where customers have concerns or feel dissatisfied in any way. In such situations where customers feel discontented Blue-Garuda will provide any assistance they can in addressing those concerns and will have no problems in honoring full refunds within 30 days of purchase should the need arise.

This positive feedback has come in response to Blue-Garuda's latest product which is a car phone holder with a difference that incorporates a super magnet enclosed in a high quality soft rubber material. This dual feature creates a stable grip for phones, mini tablets and GPS devices while minimising vibrations that can occur from driving as claimed by the manufacturer. Unlike conventional phone holders that use a sticky residue to fix them in place, the Blue-Garuda car phone holder clips to a vehicle's air vent leaving dashboards and windshields free of suction marks and clutter. Phones are then kept within easy reach for viewing with its one touch feature.
