Furry Friends Gear Announces Furbo Dog Video Camera Giveaway

April 17, 2020

April 17, 2020 - PRESSADVANTAGE -

Lehigh Valley, Pennsylvania based Furry Friends Gear is pleased to announce that they will be giving away a free Furbo Dog Video Camera to one lucky winner. The company makes it their mission to review various products for cats and dogs, offering guidance to owners who want the best for their pets.

Bett Lewis, a representative for Furry Friends Gear, says, "As pet lovers ourselves, we understand how much stress and worry pet owners undergo when they are away from their beloved pets. Due to this, we are excited to announce the launch of our sweepstakes program. We are holding this giveaway in order to help dog owners take care of their pets—even when they're far away—by sharing with them the wonders of the Furbo Dog Video Camera."

He continues, "The 2-in-1 dog video camera and food dispenser really makes this product stand out from its competitors by making pet monitoring and feeding a breeze." He also points out that Furry Friends Gear aims to introduce nothing but the best pet-related products on the market. The Furbo Dog Video Camera, which offers a solution for many pet owners who have to leave their dogs alone for work or for errands.

Lewis states that the company will be holding the Furbo Video Camera Giveaway from April 15th to May 15th, 2020. To enter the sweepstakes, interested parties need only fill up the associated form, which can be found on the company's website.

As noted on the Furry Friends Gear website, The Furbo Dog Video Camera is also capable of tossing treats. This feature allows the dog owner to interact with their dogs despite not being home. They can fill up the Furbo with over 100 treats and then throw these treats through the free Furbo app that can be downloaded on their smartphone. In addition, the Furbo camera also has an adjustable two-way audio and a barking alert feature that lets the pet owner know when their pet needs them. In fact, the barking alert feature has saved hundreds of dogs' lives from accidents and emergencies such as fires and house invasion. The camera can livestream in 1080p and full HD, with a 160 wide-angle view. The camera also has a night vision and can be zoomed in up to 4 times.

Meanwhile, the Furbo Dog Video Camera's food dispenser works best with treats that are from ½ inch to 1 inch in length and are in simple shapes. Furry Friends Gear also advises to choose treats that do not crumble easily. An article on Furry Friends Gear's website helpfully features snacks that would work perfectly with the dispenser.

Furry Friends Gear's website is dedicated to reviewing all types of products for dogs and cats to help pet lovers get the most optimal products for their beloved pets. The various types of products that the website has already reviewed include carriers and backpacks, litter boxes, collars, leashes and apparel for both dogs and cats. Aside from Furry Friend Gear's product reviews and recommendations, their website also features a blog section with informative articles about pets. It also offers advice and tips on aspects of pet care, such as practices to undertake during the COVID-19 outbreak, training one's pets, cleaning litter, assessing the safety of various pet equipment and so on.

Furry Friends Gear asserts that they care about the safety and the wellbeing of all pets. This is why they have utilized their team of experienced pet-owners to come up with an online platform that aims to help people in their journey of taking care and bringing up their furry friends. Furthermore, they acknowledge the importance of connecting with their community of pet owners and valuing their feedback. As such, Furry Friends Gear is accepting pet owners who are willing to share their experiences and knowledge as contributors to their website. They also accept special requests in case their readers would like to have a specific product reviewed (that is not on the website). Upon receiving a request, Furry Friends Gear will work on writing an article for the product in question.

Those interested may find more information on the company's website. Interested parties may also connect

with Furry Friends Gear via Facebook to stay up to date with their latest news and important announcements.
