New US Banner Flag Released By BBI Flags

August 28, 2015

August 28, 2015 - PRESSADVANTAGE -

BBI Flags, based in East Lansing, MI, is proud to introduce its latest banner flag for the United States. This particular US banner flag measures 2.5' by 4' and it can slide straight onto the flag pole, without having to use any grommets. The flag can also be displayed at a 90 degree angle, or on a slanted angle.

"We keep adding to our offerings at BBI Flags and this is the latest type of American Flag that we have released," says Nina Bailey, company spokesperson for BBI Flags.

BBI Flags prides itself in offering 100% made in the USA flags. This applies not just to the labor involved in creating the flags and other products, but also the materials. Offering mainly either US flags or state flags, the company feels that they must show their support for the country by supporting its economy and industry as well.

This new US flag is made with embroidered stars and sewn stripes. It is available through the company website, including on Amazon, where it has already received a number of positive reviews. "Beautiful flag and great quality," says one Amazon customer. "I let all of my friends and neighbors know where I got it from. Whenever I need to replace it I will be sure to buy from BBI Flags again."

The flag is made from trademarked Solormax nylon, which means it is able to withstand all types of weather extremes and still look good. Thus, it can be used under the hot sun and during the presence of strong winds. It also has a reinforced fly hem, which stops the flag from fraying. The end of the flag can be hooked to the flag pole through the leather tab, which is designed to be durable.

BBI Flags also wants to draw attention to the fact that those who purchase their American flag are also supporting the community. The company donates a proportion of the profits to DAV (Disabled American Veterans) Charitable Service Trust, Veterans of Foreign Affairs Foundation, and the Wounded Warrior Project. Each of these organizations are highly reputable and give back to people who not just need it most, but who have been at the forefront of protecting America's ideals.
