

Brian Dawson Roofing & Construction Offers Roof Repair And Replacement Amid COVID-19 Pandemic

May 15, 2020

WENTZVILLE, MO - May 15, 2020 - PRESSADVANTAGE -

Wentzville, Missouri based Brian Dawson Roofing & Construction is pleased to announce that they will continue to offer roof repair and replacement services despite the COVID-19 pandemic. The company is eager to show their customers how seriously they are taking the present health and safety guidelines, and all those interested are welcome to get in touch with the company's staff in order to learn how safety will be maintained during projects.

Laura Cameron, a company representative, says, "Springtime is just around the corner, and with that come the spring storms that can cause serious damage to any type of roofing system. In addition to posing safety risks such as slip and fall hazards, a damaged and leaky roof leads to the deterioration of the ceiling and the weakening of the structural integrity of the house as a whole. Damaged roofs may also lead to the formation and accumulation of molds that pose a significant health risk for all residents, especially as it weakens the immune system. A weakened immune system is a risk we cannot afford in a time like this due to the prevalence of COVID-19."

She continues, "If you need immediate assistance because your roof has been damaged due to hail or high winds, please do not hesitate to contact our team of professional roofers at Brian Dawson Roofing & Construction." Cameron also reiterates that it is best to have damaged roofs repaired immediately to avoid further damages down the road. As long as proper safety and strict sanitary procedures are followed, there is no reason why one's roofing repairs or installation need to wait. This is why the company is confident they can continue to provide roofing services despite the current COVID-19 pandemic.

"Brian Dawson Roofing & Construction understands the urgency of roof damage. Our company has decided to continue to offer our services despite the COVID-19 situation. Rest assured, our company can conduct business with customers safely despite these dire circumstances," states Cameron. The safety and well-being of all their customers and employees are of utmost importance to the company. As a result, they have taken several safety precautions in order to help curb the spread of the virus. The roofers at Brian Dawson Roofing & Construction are taking multiple preventive safety measures, such as cleaning their hands with soap for at least 20 seconds as often as possible, using hand sanitizer when available, practicing social distancing, regularly cleaning frequently touched surfaces and staying home when sick.

In order to keep their customers safe, the company is also taking extra precautions to ensure safe work practices. If the customer needs a roof replacement, a trained team of roofers from the company will go to the house and measure the property without the need to interact with the customer. The company also conducts their business, such as meetings, proposal signings, estimate sendings and so on online in order to avoid personal contact. This method is also utilized to send invoices, waivers and other documents. If absolutely necessary, a company representative can discuss plans with the customer in person while standing at least six feet away from each other.

Brian Dawson Roofing & Construction offers a full-range of roofing services to the residents of Wentzville and the surrounding areas. They provide commercial roofing, roof repair, roof installation, roof replacement, emergency roofing, asphalt roofing and storm damage roof repair as well as exterior remodeling services. The company also offers other related services, which include the repair and installation of sidings, gutters and windows.

In addition, the company takes pride in giving value to their customers' needs. In order to ensure customer satisfaction, the company uses only the most high-quality materials, maintaining the durability of the roofs that they install. They also assert that their teams of professional roofers are experienced in handling and installing roofs made of high-quality asphalt, cedar shake, tile and flat roofing.

Brian Dawson Roofing is one of the most trusted roofing companies in the greater St. Charles County area and is always ready to offer their roof repair or entire roof replacement services. Those interested may find more information on the company's website, or they may connect with Brian Dawson Roofing & Construction via social media to stay abreast of their latest news and important announcements.
