

# Lincoln White Plains Announces Lincoln Corsair Lease Deals

*June 15, 2020*

June 15, 2020 - PRESSADVANTAGE -

Lincoln White Plains, a New York based Lincoln dealership, wants the community to know that they have a selection of new opportunities that will enable people who might think they would not be eligible to get in the driver's seat of a brand-new Lincoln. Considered one of the best Lincolns that has ever been made, the Corsair is better appointed than most people would think and in fact it will stand comparison with automobiles many times its price.

Andy Gorran, a spokesperson for the Lincoln White Plains dealership, said "We are obviously delighted to be able to offer these very special vehicles at a price that is much more affordable than most people think. This special pricing will bring the car into consideration for many more people. Normally, it is priced somewhere in the neighborhood of \$35,000 upwards. But now a lessee can actually drive one of these away for less down and lower payments than most people would expect."

An MSN Auto article recently reported that the Lincoln Corsair was appointed in such a way that it would potentially elevate its standing in the luxury automobile space. MSN Auto gave as an example, the vehicle offers 24-way power-adjustable seats with individually articulated thigh supports, multiple massage programs, as well as heated and ventilated surfaces. These options are not usually found on a vehicle at this price level which is bound to be of interest to anyone considering moving upmarket to a more luxurious vehicle.

Lincoln Corsair lease deals at Lincoln White Plain include the offer to lease a Corsair with less than \$3600 down, and the payments would be less than \$400 for 36 months.

Mr. Gorran also said that typically a payment would be nearly at the \$500 mark for a direct purchase, for these particular vehicles. "This is quite simply an excellent offer for these sporty, crossover beauties," he said.

Located in Elmsford, Lincoln White Plains offers vehicle shoppers more comfort than ever before. The company has a new facility which features an indoor, climate-controlled vehicle display area and relaxing

customer lounges.

Mr. Gorran added that the company is committed to excellence when it comes to serving its clients, and that this means, of course, that they service what they sell when that is possible. The company stresses that it is always its intention to fix the car correctly the first time.

Lisa Kehoe, one of White Plains' customers, said that she had always been happy with Lincoln's offerings and that she has "driven away with" one of the best cars that she has ever even seen. "I love this SUV, she said. It handles well, it takes on everything I've thrown at it, and yet it still handles and looks like a dream," she said.

It is not just upmarket and affordable vehicles that White Plain Lincoln has on offer. In addition to leasing the company has select Lincoln Corsair inventory for sale for those who are more interested in buying rather than leasing.

For those that are interested in finding out more about leasing or purchasing a Lincoln Corsair can go to the company's website at [www.lincolnwhiteplains.com](http://www.lincolnwhiteplains.com). Information on how to find or to contact the company can be found there and for those who have questions there are trained advisors who can help visitors or callers find out more about the Corsair. They will be able to advise on the various choices that exist in customizing the vehicles and what is currently available at Lincoln White Plain for immediate delivery.

For anyone that is as yet undecided as to whether they would be better off leasing rather than buying, or vice versa, visitors to the company's website will find a useful interactive survey that is intended to help them decide which is the better option. The company has also made a point to put up a "screening" survey that is aimed at helping people decide if they really want to purchase or if they're better off to lease.
