

Double G Pest Control, Inc. Provides Ant And Pest Control Services

June 25, 2020

June 25, 2020 - PRESSADVANTAGE -

Quincy, Illinois based Double G Pest Control, Inc. is reaching out to the wider community to announce that they provide ant and pest control services. The company offers their services to both residential and commercial clients located in and around West Central Illinois, Northeastern Missouri and the surrounding areas.

Greg Goodwin, owner and representative for Double G Pest Control, Inc., says, "No one likes pests. That's why they are called pests. Unfortunately, pests come in such a wide variety of forms that it can seem nearly impossible to rid your space of pests, especially if you don't know where to begin. You'll be finding cockroaches under your freezer, bed bugs in your bed and ants in your pants for ages with no real solution to get rid of them. That's where we come in. At Double G Pest Control, we provide a complete suite of services that can take care of any pest issues that you might be facing."

Double G Pest Control assures all clients that, whatever the pest might be, they are capable of dealing with it. From small pests like ants, termites, fleas, flies, ticks and bed bugs to larger ones like rats, mice, centipedes and spiders to everything in between, the company is able to exterminate it rapidly and safely.

Goodwin says, "In addition to being complete and utter nuisances, the problem with pests is that they can also adversely affect the health of everyone living on the property. These adverse effects can range from small issues to fatal illnesses. You don't want to deal with either of those, obviously. If your house is facing any kind of pest infestation, the best course of action you can take is to get in touch with a pest control services company."

Double G Pest Control services residential and commercial customers in the following Illinois counties: Adams County, Pike County, Brown County, Hancock County and Schuyler County. In Missouri, the ant control company services the homes and businesses in Lewis County, Marion County, Ralls County and

Clark County.

Greg Goodwin has 25 years of experience working in the pest control industry and, as such, knows what he is doing. He started in the pest control industry working for one of the national pest control chains. After working there for 10 years, he left to go in business with a partner doing pest control and fencing installations. After nearly 10 years in this partnership, the pair decided to go their separate ways, and Greg formed Double G Pest Solutions in May 2013. Now Greg is a sole owner and provides foolproof pest control services to the Illinois community.

Double G Pest Control, Inc. provides high quality services, as is made evident by the company's customer reviews. On the Google platform, the ant removal and control company has a perfect rating of 5 out of 5 Stars. Frank Winking shares in his review, "Greg at Double G Pest Control has been doing my business location and my river camp pest control for several years now. Call Greg if you need a real pro pest control guy to get the job done right. Thanks, Greg."

Meanwhile in another review, John Wittler shares, "I've had Double G Pest Control for several years and decided to stop him coming. After two months, I was quick to call him back. I'll never have anyone else do my pest control. If you try them you will not regret it."

Cruz Gallegos praises the company in his review, writing, "Greg/Double G Pest Control do pest control for my home to keep out mice and, during the season, roach control and other insects. Life in the country means you have to deal with bugs. He does a great job and the price is right. Highly recommend Greg."

Those who have been looking for an ant exterminator or want to learn more about Double G Pest Control, Inc. and their services are welcome to visit the company's website to get started. They encourage interested parties to get in touch with Greg Goodwin directly via email or phone. The company can also be reached through the contact form on their website. Double G Pest Control, Inc. maintains a presence on Facebook where they frequently post updates, share media and communicate with their customers.
