

Made By Humans Launches Its New Range Of Home Accessories

June 25, 2020

June 25, 2020 - PRESSADVANTAGE -

Made By Humans has launched a new range of home accessories on their website. Some of the products included in this new line are photo holders, phone holders, piggy banks, vases, bookends, bowls, lamps, clocks, coasters, and more. Made By Humans already has a wide variety of products on offer in categories such as personal protective equipment, home decor, gifts, handmade goods, eco-friendly products, and desk and office accessories. The company prides itself on its creation of obscure and unique designs that are hard to find outside of their online store. The website can be accessed at madebyhumans.com.

In the words of the company's spokesperson, "The items have been selected to match the fun but functional aesthetic. We want to transform the look of the modern home interior. We feel that every space should reflect the character of the person who dwells in it. We want the customers to feel an attachment to their purchase. We try to capture a wide variety of moods when we select items for our product catalog. It is this attention to detail and creativity that has made us a stand out name in the contemporary decor industry. We like to imagine that our designs get strong reactions from people when they first see them. That is intentional. We

are confident enough in our designs to believe that we will find and appeal to the people who will fall in love with our products.?

The website has a wishlist feature that allows customers to bookmark the products that they are most interested in for later reference. The website offers a 15% discount on the first order for users who sign up using their name and email id. The company offers a 2-week return window if the customer is unhappy with the product purchased. The only required condition is that the item and gift box should be in perfect condition. The return process is handled through a call tag that can be obtained by contacting the company at the email address orderdesk@madebyhumans.net. The company also sells its products directly to other businesses through its B2B portal which is accessible from the main site.

The company says that all the products were designed to be whimsical yet practical enough for daily use. According to the company's description of its products, they have been designed with the aim of sparking interesting conversations while at the same time offering enough usability to serve a real day to day purpose. Made By Humans insists that this guiding philosophy of standing out from the crowd is the cornerstone of the product catalog on offer on the website.

To bring this vision to reality, they have a formula of the 3 Cs that they look for in a good product. These 3 Cs are color, construction, and concept. The company's spokesperson says, "The color is the first thing that roving eyes notice. Then the brain processes the construction of the object to figure out what it is. Finally, the theme of the object presents itself and the concept behind it is revealed. We want this moment of realization to be the one that hooks in the person. We strive to create that Aha moment in every design that will endear it to someone somewhere.?"

The company offers free ground shipping on most purchases over \$50 when the product is being shipped to anywhere in North America. For orders below \$50, they charge a nominal fee of \$7.95 for shipping. Ground shipping is expected to deliver in 5 to 7 business days. Expedited and Express shipping options are also available for expected delivery times of 3-4 days or 1-2 days. The expedited and express shipping options cost an extra fee of \$11.50 and \$17.50 respectively.

The company is headquartered at 1628 West, 75th Avenue, Vancouver, BC, V6P 6G2, Canada. Customers can contact the management of the company via phone at the number +1 604 275-5570 between 9 AM and 5 PM pacific standard time. Potential buyers who prefer to converse over email can use a contact form on the website.
