

Med Spa Clubs Offers Facial Treatments

July 15, 2020

July 15, 2020 - PRESSADVANTAGE -

Queens, New York based MedSpa Clubs is pleased to share that they provide a variety of facial treatments that clients may now opt for during their next visit. MedSpa Clubs is among New York City's most innovative medical spas, combining holistic practices with the latest body contouring and facial rejuvenation technology to provide high quality services.

Nikki Zhang, founder of MedSpa Clubs, says, "Here at MedSpa Clubs, we are committed to helping our clients achieve their goals through a combination of holistic practices and technology. Whatever goal you walk into our offices with, you can rest assured that everything we do will enhance your natural beauty while doing nothing to change your appearance. With our variety of facial treatments, such as oxygen facials, herbal peels, wrinkle reductions and more, you can make one more step in the right direction of being the most beautiful, true version of yourself."

The variety of facial and skin treatments offered by the clinic are all focused on achieving the most natural results. For instance, the clinic's oxygen facial procedure allows people to rejuvenate their skin cells and gain a bright and healthy appearance. During this procedure, an aesthetician will first cleanse and exfoliate

the patient's face before using a wand to deliver a stream of high pressurized oxygen to the skin's surface. Serums, usually containing hyaluronic acid (which is known to plump the skin), are also applied to the face with the wand or after the oxygen portion of the facial.

Other treatments offered by MedSpa Clubs include Wrinkle Reduction procedures that use micro-currents to reduce wrinkles and crow's feet by emitting low electrical currents, collagen stimulation by the use of acupuncture, gentle brightening procedures that use Herbs2Peel specialized herbal peel treatments patented by Alex Cosmetics and so on. Zhang says, "If you want to improve how you look, MedSpa Clubs is capable of doing it for you. In addition to our facial treatments, we also offer a number of body treatments that can take care of many different issues you might be facing. Whether it's through Cryolipolysis or VelaShape or any one of other specialized procedures, MedSpa Clubs can help you attain that perfect look you want."

Nikki Zhang was a licensed acupuncturist with over 15 years of experience when she started MedSpa Clubs. She created MedSpa Clubs to serve as a place where patients could receive holistic treatment that could make lasting changes. The treatments at MedSpa Clubs are based on a deep foundation in traditional Chinese medicine. Lasting results are achieved by pairing effective physical treatments such as LPG Endermologie and VelaShape and addressing underlying causes of weight gain or skin conditions.

Nikki Zhang received her bachelor's degree in China and her master's degree in Acupuncture and Oriental Medicine from New York College of Traditional Chinese Medicine. She is also a member of CAIPA and Credentialed by American Specialty Health, and she is a candidate of the American Board of Oriental Reproductive Medicine. Having received the National Certification Commission for Acupuncture and Oriental Medicine (NCCAOM), she is licensed to practice Acupuncture and Chinese Herbal Medicine in the state of New York and New Jersey,

The variety of services provided by MedSpa Clubs have earned the clinic a sterling reputation among clients in New York. On their GMB listing, the clinic has a near perfect rating of 4.9 out of 5 Stars. In a recent review, Eva Maria shares her experiences with MedSpa Clubs, saying, "My son has been dealing with horrible acne for years, and we've tried everything to fix it. It wasn't until we were recommended to MedSpa Clubs and tried their herbal facial peel that he finally started to see real results."

Sophie Yara says in her review, "I've been getting my CoolSculpting done here for the last few months and every session has been wonderful. The results have been great, too!" Meanwhile, Kelly Mueller praises the clinic's services as well, saying, "I took my Oxygen injection and started feeling better in a matter of minutes. The professional staff at Medspa Clubs told me that everything's gonna be okay. They were able to relax me."

Those who want to learn more about MedSpa Clubs and their services are welcome to visit the company's website. They encourage interested parties to get in touch with Nikki Zhang directly via email or phone, and the company can also be reached through the contact form on their website. MedSpa Clubs maintains an official Facebook page where they frequently post updates, share media and communicate with their clients.
