

Aesthetica Provides Treatments In Home To Keep Clients Safe

July 27, 2020

July 27, 2020 - PRESSADVANTAGE -

West Bloomfield Township, MI based Aesthetica PLLC is pleased to share that they are now giving clients the option to have certain treatments carried out in the safety and comfort of their homes. As the medical spa did not want the COVID-19 pandemic to unduly affect their clients' beauty schedules, they came up with this solution in response. Their services are available to communities in Bloomfield Hills, Birmingham and the surrounding areas.

"The safety of our clients is our utmost priority," states Dr. Keshav Grover of Aesthetica PLLC. "Since the pandemic began, we have been hard at work trying to figure out how we can keep up our high standard of service. Now, months later, we have a much better idea of the measures that are needed for everyone to stay safe, and so we are proud to announce that our clients may request our services without hesitation. All you need to do is schedule a visit, and we shall come to you."

Should anyone be curious or concerned as to how the team at Aesthetica is able to maintain safe social

distancing during home visits, they are encouraged to get in touch with a representative from Aesthetica who will be more than happy to explain their procedures. Dr. Grover adds, "Even before the onset of the pandemic and all the challenges it brought, we strongly believed that there was only one true way to help our clients achieve their goals: a transparent and synergistic partnership. This means that we are familiar with working alongside our clients in pursuit of their beauty standards. Today, we can use this experience to make sure everyone stays safe during a treatment. Our clients are as involved in this process as we are."

In practice, this means that the client will help Aesthetica's team create a safe space for the treatment to take place, and they are informed of all safety protocols in advance. While the nature of the treatments required may make it impractical for the client to cover their face (such as by wearing a mask), they can rest assured that Dr. Grover and any staff who accompany him will be wearing appropriate personal protective equipment (PPE) throughout the duration of their visit. This will help keep the risk of transmission to an absolute minimum. A series of additional measures are being taken behind the scenes at Aesthetica as well, such as staff being allowed to stay home if they feel ill or otherwise experience any known symptoms of COVID-19.

Notably, interested parties may visit Aesthetica's Facebook page in order to observe how other clients have already utilized their in-home services to their advantage, keeping wrinkles and other unwanted signs of aging at bay despite the pandemic. As these are stressful times for all, certain clients may be more prone to having their emotions take a toll on their skin as well. Fortunately, Aesthetica is more than pleased to provide a variety of Botox and facial filler treatments (Juvederm, Revanesse Versa, Restylane and Belotero) to help them turn back the clock.

The skincare and beauty center currently holds a full 5-Star rating on the Google platform, and they are confident they can expect many more reviews from satisfied clients in the near future. For instance, Mark Shaftner, a client who was looking for a better Botox provider, says in a glowing Google review that, "I had been getting Botox from another establishment for about a year before I met with Dr. Grover at Aesthetica. Immediately, the superior product and care from Dr. Grover was evident. My results are better and lasting longer. I'm beyond satisfied and will continue to recommend Dr. Grover and Astheica to friends, family and colleagues."

More information regarding Aesthetica's services, their team and the work they do for their clients can be found on their official website as well as other online resources. Similarly, clients may look up the company's GMB listing or get in touch with Dr. Keshav Grover for further details. They are also eager to communicate with clients who reach out to them via social media.
