

Merger Deal for Top Bed Bug Treatments of Noblesville

September 08, 2020

September 08, 2020 - PRESSADVANTAGE -

Top Bed Bug Treatments of Noblesville has provided Hamilton County residents and business owners with reliable pest control treatments for over ten years. The company has helped thousands of customers over a wide spectrum of different species of pests. They have helped both residential and commercial properties and have great reviews online for both. Their satisfactory rate is amazing and they have successfully built a great reputation of being fast and reliable when it comes to treating pests.

The company has grown very quickly over the past few years and is planning on growing even more. They recently announced that they are going into a merger agreement with another smaller company. The other company is deciding to stay anonymous until the merger contract gets signed this weekend. The president of Top Bed Bug Treatments of Noblesville recently said, "We are always looking for ways to improve. We want to provide the best pest services to Hamilton County residents because we think they deserve it. This merger is us doing exactly that. This merger will allow us to better take care of our community and guarantee more accurate results than we currently have. The team will be receiving brand new pest control equipment, utility vans, and a new employee will be joining the team."

The company says the merger will allow the company to more successfully take care of any infestation out there. They are prepared for anything the pests will throw at them. The pest control equipment will allow them to more reliably take care of any pest in the area. This new equipment is next gen technology and is supposed to leave zero pests behind. The utility vans are already set up for a pest control job so they will allow the team to better organize their tools and equipment. This allows our exterminators to be done with treating the pest infestations quicker than ever before. Finally, the new employee will help the company help even more people than ever before.

If people think they have a pest infestation in their home or business they should call Top Bed Bug Treatments of Noblesville today. They can help with any questions about pests. They can be contacted by phone or on their website at <https://bedbugtreatmentsnoblesville.com/>. Their hours are from 8 a.m. to 6 p.m.

on weekdays and from 9 a.m. to 5 p.m. on Saturdays. They are closed on Sundays.

An employee of the company said, "Pests can take over an entire property overnight so if you see a pest in your home make sure to look for any more clues that there is an infestation. If you do have a pest problem, please call us today and we can answer any questions you have."
