

New Staff Hired at Largo Pest Control & Exterminator

September 08, 2020

September 08, 2020 - PRESSADVANTAGE -

Largo Pest Control & Exterminator has provided the area with reliable pest control services for a decade now. Their treatments are known to be reliable, affordable, and fast. Each treatment they provide is highly reviewed by local customers. Their team of pest exterminators have been professionally trained on how to take care of any species of pest in the area. They are more than qualified to handle any pest problem out there.

The company recently announced that they are hiring new staff to the company. They welcomed Shawn Parker and Peter Schroll to the company on Tuesday. The president of Largo Pest Control & Exterminator said in the meeting that welcomed them, "We have one final announcement before we dig into the food bar. I would like to welcome the two newest exterminators on the team. We just hired Shawn Parker and Peter Schroll. Shawn has been in the pest control industry for over twenty years so he has all the experience necessary to reliably handle any pest in the area. Peter also has a lot of experience in pest control. He has been in the industry for over ten years. Both men have great work ethic and boast great can-do attitudes."

The company has been providing three main pest services to local residents. They offer custom pest treatments, routine checkups, and emergency services. Their custom treatments are the company's flagship treatments. Each treatment is custom designed to treat each individual species of pest in the area. This ensures that each pest is taken care of in the most effective way possible.

Their routine checkups are also very popular because they prevent infestations from ever happening in the first place. These services are scheduled and performed monthly, quarterly, biannually, and annually. Finally, their emergency services are useful for when people are met with dangerous situations involving wild animals or venomous pests.

The company provides reliable pest infestations to residents of Pinellas County. If local residents or business owners think they have a pest infestation they should contact Largo Pest Control & Exterminator today. They can be reached by phone or on their website at <http://largopestcontrolexterminator.com/>. They are open from 8 a.m. to 5 p.m. on weekdays and from 9 a.m. to 1 p.m. on Saturdays. An employee of the company said, "Pest infestations spread like crazy so if people think they have a problem they should try to contact a professional immediately."
