

Best Mesquite Pest Control Hires New Technicians

September 09, 2020

September 09, 2020 - PRESSADVANTAGE -

Best Mesquite Pest Control has provided Dallas County with the most effective pest control treatments for over twenty five years. They have a team of fifteen professional exterminators who all know how to treat every species of pest in the area. They have all gone through hours of training. The company's services are known to be fast, affordable, and reliable.

Best Mesquite Pest Control announced in a meeting last week that they have two new employees that will be starting this week. Tim Clay and Sheila Stremos are the newest addition to their team. The president of the company said, "Please help me welcome Tim Clay and Sheila Stremos. Tim has been in the pest control industry for over five years and has experience in treating every species of pest in the area. He has a great work ethic and is really good at fixing things. He also has a lot of experience in fixing our pest control equipment as well as utility vans. Sheila has been in the pest control industry for seven years and also knows how to treat every species of pest in the area. She has an amazing can-do attitude and loves helping people. I know they both will be great additions to the team and will do a great job at protecting our community from pest infestations."

The company also announced that they have noticed a huge spike in the number of pest infestations in the area. They say the main reason is because people are using everyday treatments instead of professional services. A representative of the company said, "Pests have grown immune to these treatments. DIY methods and over the counter products aren't as effective as they used to be. Professional services are now the only reliable way to treat a pest infestation."

The company has a lot of high star reviews so if people think they have a pest problem they should contact Best Mesquite Pest Control today. They can be contacted by phone or on their website at <http://bestmesquitepestcontrol.com/>. Their hours are 8 a.m. to 5 p.m. on weekdays and from 8 a.m. to 1 p.m.

on Saturdays. They are closed on Sundays. They provide a large variety of services that are suited for any pest infestation out there.
