

Essex Union Podiatry Caldwell Feet Deformity Treatments Are Helping Patients All Over New Jersey

December 10, 2020

December 10, 2020 - PRESSADVANTAGE -

Essex Union Podiatry is a podiatry clinic in New Jersey that serves Essex and Union counties with three convenient locations in Rahway, Springfield, and Caldwell. They are offering treatments for various conditions such as bone conditions, muscle conditions, poor circulation, skin conditions, tendons and ligaments conditions, and many more.

Essex Union Podiatry offers comprehensive services such as foot and ankle deformity correction, sports medicine, general podiatry, trauma care, diabetic care, and full ankle replacement. The podiatry clinic's physicians use the latest techniques to correct deformities of the foot and ankle with minimal downtime. They treat a wide range of sports-related injuries, such as sprained ankles, tendonitis, and broken toes for patients of all ages and activity levels. They provide a variety of onsite services for foot and ankle care following injury or illness with treatments, such as laser nail treatments and in-office procedures. Their physicians have expertise in treating foot and ankle-related trauma, including in-office X-rays. Their physicians specialize in the prevention and management of complications resulting from peripheral neuropathy in those suffering from diabetes to maintain healthy feet.

Essex Union Podiatry offers surgical treatment options for deformities, including ankle deformities, ankle instability, brachymetatarsia (also known as "short toes"), bunion, Charcot arthropathy, claw toe, clubfoot, flat feet, Haglund's deformity (also known as "pump bump"), hammertoes, mallet toes, Osteomyelitis, overlapping or underlapping toes, peroneal tendon dislocation/dysfunction, pes cavus, posterior tibial tendon dysfunction, post-traumatic deformity, sesamoiditis, spurs, and tarsal coalition.

Essex Union Podiatry says that its caring physicians and supporting staff understand that a deformity of the foot and/or ankle can be debilitating and may result from traumatic injuries caused by an accident, birth defect, or infection. They claim to provide superior service to adult, children, and adolescent patients of all activity levels. Its physicians effectually diagnose and treat all deformities regarding the foot, ankle, and lower leg along with their associated ligaments, tendons, muscles, and bones. More details about the clinic can be viewed on its Facebook Page.

According to Dr. Jason Galante, "At Essex Union Podiatry, we have a commitment to personalized, compassionate care when it comes to your condition and its treatment. With a team approach and an emphasis on patient education, we work hand in hand with you to ensure that you are thoroughly informed about your diagnosis, treatment options, and preventative care. We create a customized plan that works best for you and we include you in the decision-making process. Our goal is to get you moving again and to promote your improved health and well-being with minimal downtime. We pride ourselves on delivering a superior level of service with a comforting bedside manner. With same-day appointments and in-network insurance, we are fully invested in the patient as well as the hands-on quality care we provide."

According to a testimonial by Lisa Vizzone, "After being in severe pain and in tears every day for months I walked into Dr. Galante's office for a consultation. His bedside manner was amazing and he immediately had a game plan to help me. He walked me through the surgical procedure that was necessary and I have no pain today and have my life back. Thank you so much, Dr. Galante. You are the best."

According to a review by B.L. Close, "I am currently a patient of Dr. Sarah E. Haller. Dr. H. operated on my right ankle for a fractured fibula & torn ligaments. I feel so fortunate to have found such a thorough, skilled/gifted physician to treat my ankle injury. I am very impressed w/Dr. Haller's commitment to her patients & exceptional bedside manner. I was terrified by this sudden injury & clueless as to what to expect, but Dr. H's ability/willingness to clarify the scope/course of treatment required calmed me as needed. Also, her "responsiveness" to my issues has been far superior to my previous experiences with doctors."

More reviews of the service they offer can be read on the clinic's GMB listing.
