

New Dental Partnership at Lakefront Family Dentistry in Lake Elsinore

January 04, 2021

January 04, 2021 - PRESSADVANTAGE -

As of January 4, 2021, Dr. Mark Phillippe is an official business partner with Dr. Derek Hauser at Lakefront Family Dentistry—a luxury dental practice located in Lake Elsinore, CA.

“A partnership is like a marriage,” said Dr. Hauser. “Both partners have to be on the same page and ensure that the philosophies mesh. Both Dr. Phillippe and myself share the values that make Lakefront Family Dentistry successful—building relationships with patients, continuing to improve skills via continuing education, and using the latest technology to provide top-notch dental care.”

Dr. Phillippe has more than 10 years of dental experience using advanced technology to create beautiful smiles using the practice's in-house software and CEREC milling machines. After graduating from the University of the Pacific School of Dentistry as a member of the Tau Kappa Omega Honors Society, Dr. Phillippe honed his dental skills during a residency with the United States Army—serving as an active duty dentist at Fort Carson for more than 4 years. After leaving the military, Dr. Phillippe continued his dental

training and learned additional specialty skills to provide outstanding patient care.

"Lakefront Family Dentistry invests in the most advanced technology such as CEREC dentistry, the Solea Laser, and titanium dental implants," said Dr. Phillippe. "By using the most advanced technology, the office provides patients with the best looking, longest lasting, and most convenient treatment available. Being a part of this team allows me to give my patients peace of mind to enjoy everything that life has to offer without worrying about their dental health."

"Dr. Phillippe has made an impeccable impression on our patients," said Dr. Hauser. "Finding a dentist with the skills, demeanor, and experience with Lakefront Family Dentistry's advanced software and technology is rare. Dr. Phillippe is a great fit for the practice."

Dr. Hauser has almost 30 years of experience in dentistry, graduating from the USC School of Dentistry in 1993. As a recipient of the coveted Fixed Prosthodontic Award, Dr. Hauser was invited to join the school's faculty and taught dentistry for several years before starting his own practice. "Continuing education and keeping up with the latest technological advancements is very important," said Dr. Hauser. "The team at Lakefront Family Dentistry is certified in laser dentistry, Invisalign, titanium dental implants, and CEREC dentistry." Dr. Hauser also lectures and teaches other dentists how to place dental implants in their practices.

Dr. Phillippe and Dr. Hauser are supported by a team of experienced staff members, which includes two Registered Dental Assistants in Extended Function, Expanded Duties Level II (RDAEF). The RDAEF assistants have completed additional education and are licensed to implement duties such as sealant application, topical anesthetic, coronal polishing, crown application, as well as dental impressions.

The Lakefront Family Dentistry team also includes three additional registered dental assistants, five registered dental hygienists, and four patient coordinators. Rounding out the staff is Stella, the office's therapy dog. A trained therapy dog, Stella works with patients that need a little extra love and attention.

"The staff at Lakefront Family Dentistry strive for constant improvement in delivering care to our patients," said Dr. Hauser. "All of us are committed to using the most advanced technology, highest quality materials, and the most current techniques to deliver the finest care available."
