

Finding The Right Officer Cleaners in Brisbane is Super Easy & Affordable with Clean Group

January 13, 2021

SYDNEY, NSW - January 13, 2021 - PRESSADVANTAGE -

Clean Group, a full-service office cleaning company in Brisbane (<https://goo.gl/maps/Uq7txeEEWpuykn7S8>), is committed to making it easy and affordable for businesses to hire top quality office cleaners in and around the Brisbane city.

“The demand for expert and low-cost office cleaners is increasing, and we at Clean Group are committed to meeting the increasing demand through our high-quality office cleaning services provided in line with the company’s core values. Our office cleaners are trained professionals who are insured and police checked for providing outstanding services with utmost safety. If you are looking for high-quality office cleaning on a budget, call us today,” says Suji Siv, owner and CEO of Clean Group.

When it comes to quality office cleaning, there are not many options for businesses in Brisbane. Most of the cleaning companies that provide this service either use external cleaners or have limited capabilities to handle a job properly. Bad reviews and poor customer experiences are very common in this industry.

However, Clean Group is different. Being one of the most reputable commercial cleaning companies in Brisbane with over 20 years of experience and an in-house team of expert office cleaning, the company consistently provides high-quality cleaning services to businesses with guaranteed satisfaction.

One of the best things about Clean Group is that they only use in-house cleaners who are trained in the company's proprietary cleaning practices for safe & effective results. Also, they have a strict policy to use only green and eco-friendly solutions that are safe for people and the environments.

These are just some reasons why hundreds of businesses trust Clean Group for their routine cleaning needs in Brisbane.

Clean Group has a specialist team of office cleaners who have a minimum of 2 years of relevant experience in the industry. They provide office cleaning services to all types of commercial premises in all major suburbs of Brisbane. Their cleaning services include both basic office cleaning and advanced cleaning, including office disinfection.

The latest inclusion to their office cleaning services is COVID-19 disinfection cleaning, which involves complete disinfection of a commercial facility to kill germs and viruses and make the place safe for people around.

"We have been cleaning offices in and around Brisbane for over 20 years now and are familiar with the cleaning needs of locals. We understand their cleaning requirements and know their expectations, which makes us the best office cleaning company for the jobs," says Suji Siv.

Clean Group's office cleaners Brisbane can be hired in three easy steps. Potential customers can call their sales team and request a free on-site quote. Alternatively, they can send their requirements to the team using the form given on the Clean Group website.

Once a manager is assigned to the project, he will analyse the client's requirements and schedule a site visit. After an in-depth analysis of the cleaning requirements and scope, the manager will create a customized plan and prepare the best quote for the client. The client can then review and approve the quote and get the work started.

Clean Group cleaners are as efficient as they get. They provide complete office cleaning service, which includes the cleaning of floors, dusting and cleaning of furniture, upholstery, etc.,

kitchen cleaning, toilet cleaning & disinfection, cafeteria cleaning, garbage removal, outdoor cleaning,

and more. Also, they can be hired for specialized office cleaning projects, such as high-rise window cleaning, after builders cleaning and end of lease office cleaning.

They use non-toxic cleaning solutions, coupled with cutting-edge tools including the iMop floor scrubber and microfibre cleaning cloths, that are highly effective in removing dust, dirt as well as germs from a surface in a totally eco-friendly manner.

Hiring a professional office cleaner has become quite difficult over the years, not because there is a lack of good cleaners but due to the increasing competition and service providers in this space.

Choosing the right cleaner for a particular office cleaning project requires in-depth research of the market. One must consider all the options, interview prospects, and ask a variety of questions. A good office cleaner is able to offer quality, has some experience and can provide services to meet customer expectations.

Businesses looking for such an experienced office cleaners team in Brisbane can call Clean Group or visit their website to request a no-obligation quote.
