

Drop N Bins Continues to Provide Affordable Roll Off Dumpster Rental to Customers in Goodyear Amidst Surging Pandemic

January 15, 2021

January 15, 2021 - PRESSADVANTAGE -

Drop N Bins, a local reputable dumpster rental has announced today, Tuesday 12.01.2021 that it will continue to provide the invaluable waste removal services to homeowners, businesses and communities in Goodyear, Litchfield Park, Surprise and Buckeye even amidst the surging Covid-19 cases.

According to current news reports, health officials have highlighted the Covid-19 situation in Arizona as dire. Based on data published by the John Hopkins University, Arizona State currently tops as the highest global average on the rate of infections per capita, with the highest 7-day average.

The company acknowledged that the Covid-19 virus was spreading in unprecedented numbers and they added that they had done all they could as an essential service provider to ensure that their drivers, representatives and customers were protected. They also reiterated that they in fact understood the gravity of the situation and were well prepared in terms of providing mandatory training to employees as well as PPEs in order to minimize interaction and ensure high safety standards.

A company representative stated, "Drop N Bins understands that the current situation in Arizona with the soaring Covid-19 infection rate is grave and owing to this; we have taken a proactive stance in order to be able to safely deliver clean, uncontaminated dumpsters to our customers. We know that we cannot stay back and allow waste to accumulate and pose health hazards in our community and that is why we have chosen to step up and continue to make these essential services accessible to anyone who needs a dumpster for any waste removal project."

The representative further added, "All Drop N Bins representatives have been freshly trained in regards to maintaining high sanitary standards, using PPEs correctly, reducing contact with customers and with each other as well as in cleaning and disinfecting the rental bins after every project using strong industrial cleaners."

The company makes note on their website that anyone can rent a dumpster and have it delivered whether or not the delivery driver interacts directly with the customer. The company has made it easier for all Goodyear residents and business owners to continue with home clean outs, renovations and junk removal.

On the company website, Drop N Bins offers four dumpster sizes that customers can select depending on the size of their projects or the type of waste they want to dispose of. They have 10 yard dumpsters, 15 yard dumpsters and 20 yard dumpster rental containers. They also state that they deliver rental dumpsters to Goodyear, AZ as well as to other nearby cities.

Their dumpsters can be used to dispose of various types of waste including construction & demolition debris, industrial waste, disposal of refrigerators, Televisions and other E-waste, yard waste, general residential waste and various junk items. For more detailed information on the dumpster containers they offer, their pricing or rental terms, anyone interested can check their website.
