

SOS Wax and Skincare to Reach New Heights with Bliss Drive

March 22, 2021

March 22, 2021 - PRESSADVANTAGE -

SOS WAX and Skincare, a specialized beauty salon focusing on skincare, waxing and teeth whitening with three Las Vegas locations in Aliante, Summerlin and Providence, NV, has launched a new partnership with the California-based digital marketing firm, Bliss Drive. With locations in Los Angeles, CA and Irvine, CA, Bliss Drive specializes in a variety of digital marketing and search engine optimization services for US-based businesses of varying sizes and industries. With this new partnership, SOS WAX and Skincare is aiming to take their online visibility and digital marketing strategy to the next level.

With multiple locations throughout Las Vegas, NV, SOS WAX and Skincare is one of the area's premiere boutiques for waxing, facials and a variety of skincare services. SOS WAX and Skincare offers bikini and brazilian waxing services for both men and women. These waxing services include hard and soft waxes for both men and women focusing on face, midsection and lower body waxing. The waxing packages offered by SOS WAX and Skincare also includes the option for maintenance packages for the different areas, which are discounted in comparison to the normal service and just requires that a customer returns for their follow-up visits every 4 weeks. To view the variety of waxing services available to women, readers can visit the SOS WAX and Skincare Women's Services page.

Besides waxing services, SOS WAX and Skincare offers a wide range of skincare services as well. From a range of facials and chemical peels to Thermoclear and intimate area lightening services, SOS WAX and Skincare can assist with a multitude of different skincare needs. According to the SOS WAX and Skincare website, Thermoclear services can treat epidermal skin imperfections rapidly without any down time and minimal pain at a fraction of a dermatologist price and Intimate Area Lightening can help those suffering from an embarrassing dark or discolored intimate area or underarms. Facials include Classic European, Hydrofacial and more, with options for add-ons like Microdermabrasion and Peels.

SOS WAX and Skincare also offers Infrared Body Wraps. According to the SOS WAX and Skincare website, a Formostar Infrared Body Wrap is a relaxing 50 minute treatment for weight loss and pain management, including arthritis. It's great for helping to diminish the appearance of cellulite and there is never a need to disrobe. The website continues on to say that the Formostar Infrared Body Wrap works by applying infrared heat deep into the body where fat tissues exist, the result is increased metabolism rates causing fat tissue to break up, burning excess calories as energy.

Readers interested in learning more about the variety of waxing, skincare, teeth whitening and infrared body wrap services provided by SOS WAX and Skincare, or those interested in booking a visit online, can visit the SOS WAX and Skincare website at <https://soswaxlv.com>. SOS WAX and Skincare can also be reached by email at info@soswaxlv.com.
