Local MAT Clinic Makes Headlines with Rave Patient Reviews

July 21, 2025

MORRISTOWN, TN - July 21, 2025 - PRESSADVANTAGE -
July 10, 2025: Morristown, TN ? ReVIDA® Recovery is a local rehab that specializes in using medication-assisted treatment (MAT) in combination with behavioral health therapy to empower people to heal from opioid use disorder (OUD). ReVIDA® Recovery has been treating people with opioid use disorder in Appalachia for years, and they know just how effective MAT is because they?ve seen it work countless times.

Oftentimes, ReVIDA® is a patient?s first experience with a MAT clinic that truly prioritizes their well-being. The quality of care that ReVIDA® provides is truly above the rest, and patients notice.

?I have been to centers all over the country, but on my first appointment with ReVIDA®, it felt like I was finally home,? said Rhonda Drummer, who?s a patient at ReVIDA® Recovery?s Morristown location.

ReVIDA® Recovery creates that homey feeling by combining the most cutting-edge, scientifically advanced medications with evidence-based, emotionally aware psychotherapy. The combination of closely monitored medication management and psychological healing creates an environment where patients like Drummer

know they have a path forward.

?Each and every person I have had contact with here has compassion and wants you to succeed,? Drummer continued.

At ReVIDA®, Drummer and other patients have the opportunity to choose between two key medications that reduce cravings for opioids and mitigate withdrawal symptoms. Suboxone comes in the form of a pill or film that?s taken daily. Sublocade is a once-a-month shot. Both medications are safe and effective. Having options empowers clients to work with their doctor to make the decision that works best for them and their lifestyle.

?I can not say enough about Dr. J.; he is a truly amazing and loving doctor,? Drummer said. ?He is doing God's work as far as I'm concerned.?

Patients at ReVIDA® Recovery don?t just get to connect with their doctor. They have an entire team connecting them with the tools they need to succeed in recovery.

Every patient works with a care coordinator who assists them in finding resources that support sustainable recovery from OUD. These resources often include SNAP benefits, safe housing, and job opportunities. In certain cases, care coordinators work with patients with resources for court, like proof of treatment and help paperwork for child protective services. ReVIDA® knows that each patient?s needs are unique. Every patient?s care coordinator is there to tailor resources to them.

?Everyone cares about you here,? Drummer said.

Patients also get the opportunity to work with a certified therapist. Therapists empower patients to recognize the relationship between their thoughts, feelings, and actions. Over time, patients and therapists work together to develop effective coping strategies to reduce harmful behaviors.

All of the patients at ReVIDA® also participate in group therapy. When they participate in group therapy, patients develop a sense of community and remember that they?re not as alone in their recovery as they may feel.

?You can't go wrong with ReVIDA®.? Drummer concluded. ?Go ahead, make that hardest first call to them, and you will not regret it!?

ReVIDA® Recovery is a MAT clinic with several locations throughout Eastern Tennessee and Western Virginia. There are a number of options for patients who cannot afford treatment on their own, including

ReVIDA®?s Treatment for All plan. ReVIDA® works with most major insurance providers.

The Morristown, TN, clinic is located at 230 Bowman Street, Suite C, Morristown, TN 37813.
