

Ugly Duct Cleaning Talks About The Importance Of Dryer Vents Cleaning

April 30, 2021

April 30, 2021 - PRESSADVANTAGE -

April 2021, Bluffton, SC - Ugly Duct Cleaning says that regular dryer vent cleaning should be done at least once every year. The Best Dryer Vent Cleaning in Bluffton, SC says this is to ensure that it remains functional throughout the year. For those who use the dryer more often, cleaning should also be done more than once.

To ensure it is adequately cleaned, dryer vent cleaning should be left to professionals, the Bluffton-based company adds. Ugly Duct Cleaning points out several reasons why. Number one is to save time. Clogged ducts cause the dryer to take more time drying clothes, even requiring more than one cycle. Cleaning the dryer vents ensures that the machine would run efficiently again. It then allows the household to do more important tasks.

Aside from time, the household also saves on energy. If the dryer does not function properly, the machine will spend more energy than it is supposed to. Thus, experts recommend hiring a professional team to clear up dryer vents.

The Best Dryer Vent Cleaning Service also helps protect the household from health and safety hazards. A

clogged dryer vent can encourage the growth of allergens in a home. It can also exhaust moist air and even cause carbon monoxide poisoning.

Apart from health safety, regular dryer vent cleaning can also protect a home from fire hazards. The combination of heat and lint build-up due to clogged dryer vents can cause a fire. A professional dryer vent cleaning service should be able to clear the clog and provide great ventilation for a healthier home, adds Ugly Duct Cleaning.

The Bluffton-based company offers dryer vent cleaning, installation, repair, relocation, and replacement. Their services include cleaning inside the dryer and behind the dryer lint trap. They also clean or replace flex lines from the dryer to the inside wall. They also clean behind the dryer and even the outside wall vent or roof vent.

Ugly Duct Cleaning can also install new dryer vent lines, outside wall vents, roof vents, replace flex, and make sure your home is up to industry code.
