KTM Exteriors Roofing Company Expands Services with Eco-Friendly Solutions and More

September 17, 2025

HAMPSTEAD, NH - September 17, 2025 - PRESSADVANTAGE -
KTM Exteriors and Roofing has announced a significant expansion of its services to provide homeowners and businesses with a wider range of roofing solutions. The roofing company is unveiling energy-efficient systems, specialty roofing materials, and enhanced maintenance programs, reinforcing its role as a trusted resource in the region.

One of the central additions is the launch of eco-friendly, energy-efficient roofing systems. These advanced options are designed to improve insulation, lower heating and cooling costs, and promote sustainability. As more property owners seek environmentally responsible construction methods, KTM Exteriors and Roofing is making it easier to achieve lasting efficiency without sacrificing durability, focusing on materials that are designed for the challenging New England weather.

?Our goal is to give customers peace of mind while also supporting greener building practices,? said a spokesperson for KTM Exteriors and Roofing. ?By offering materials that reduce energy use, we?re helping

property owners save money and contribute to a healthier environment.?

The roofing company is also broadening its catalog of specialty materials, offering choices that balance performance, aesthetics, and cost. Options include rubber, asphalt, and custom shingle designs, each tailored to meet the demands of diverse architectural styles and climates. Asphalt remains a dependable and cost-effective material, while rubber offers excellent resistance to leaks and extreme weather. For those seeking a unique appearance, custom shingle designs provide a personalized touch that enhances curb appeal.

?Our clients trust us to protect their most valuable investment?their property,? the spokesperson added. ?By offering eco-friendly products, durable materials, and preventative care, we?re providing a complete roofing experience that focuses on both performance and peace of mind.?

In addition to new products, the company is investing in expanded maintenance and inspection services. Regular roof inspections help identify minor issues before they escalate, and KTM Exteriors is offering programs that include seasonal checkups, preventative care, and customized maintenance plans. These proactive services are designed to extend the lifespan of roofing systems while minimizing unexpected repair costs.

KTM Exteriors is rolling out these updates at a time when more property owners are prioritizing efficiency, sustainability, and long-term value. The roofing company?s expanded services ensure that customers can access solutions that combine technology with practical reliability.

With the introduction of energy-efficient solutions, specialty materials, and maintenance services, KTM Exteriors and Roofing is continuing to strengthen its reputation as a reliable partner for residential and commercial roofing needs. These additions reflect the company?s focus on innovation, customer satisfaction, and sustainable construction practices.

KTM Exteriors and Roofing offers over 40 years of expertise and is fully licensed and insured. The company's services include roofing, siding, windows, fascia, soffits, decks, flashing, and other exterior solutions for both residential and commercial clients. KTM Exteriors is a locally ran and owned company, giving them a deep understanding of Boston's neighborhoods, architectural styles, and building codes.
