Atlanta National Pickleball Club Announces Culinary Partnership with Award-Winning Trattoria One41 Team

October 14, 2025

October 14, 2025 -
Atlanta National Pickleball Club (ANPC) has announced a strategic culinary partnership with the acclaimed team behind Johns Creek's Trattoria One41, bringing world-class dining experiences to the premier pickleball facility set to open in Fall 2025. The partnership will introduce Kitchen 141 as the club's full-service restaurant and Pickle Bob's Sports Bar as an expansive mezzanine-level venue overlooking all 18 indoor courts.

The culinary operations will be led by Owner/Operator Sean Moorehead and Chef Brian Thomas, who have earned recognition for their award-winning dining destination in Johns Creek. The partnership represents a significant enhancement to the comprehensive lifestyle amenities planned for the club, which aims to provide an elevated pickleball experience for players of all levels.

"This partnership with Sean Moorehead and Chef Brian Thomas brings together two organizations that share a commitment to excellence and community," said John Bardis, Founder of Atlanta National Pickleball Club. "Their proven track record of creating exceptional dining experiences aligns perfectly with our vision of offering members more than just outstanding pickleball facilities. Kitchen 141 and Pickle Bob's Sports Bar will become integral parts of the ANPC lifestyle, where members can celebrate victories, connect with friends, and enjoy world-class cuisine in a sophisticated yet welcoming atmosphere."

Kitchen 141 will serve as the club's primary dining destination, offering a dynamic menu designed to complement the active lifestyle of pickleball enthusiasts. The restaurant will feature curated cocktails and dishes tailored to provide both nourishment and celebration. Private event spaces will also be available, with catering services provided by the Kitchen 141 team.

Pickle Bob's Sports Bar will occupy the club's expansive mezzanine level, providing members and guests with panoramic views of all 18 courts. The venue will feature a dedicated bar, multiple seating areas, and a private events room with a lounge and meeting spaces. The sports bar is designed to be an exciting social

hub where members can gather to watch matches, celebrate after games, or simply enjoy the club's vibrant atmosphere.

This culinary program is the cornerstone of ANPC's comprehensive approach to member services. The addition of these dining venues complements the club's other world-class features, including state-of-the-art courts, professional training programs, gym and wellness facilities, and luxury locker rooms. This integration of athletic and social elements reinforces the club's commitment to creating a complete lifestyle destination for the pickleball community.

The Atlanta National Pickleball Club represents a new standard in club pickleball facilities, combining athletic excellence with premium lifestyle amenities. Memberships are currently available for those interested in joining the club's inaugural member community. Check it out at ANPC.US!
