

All In Solutions California Expands Family Therapy Support Through Virtual Forum for Outpatient Clients

November 05, 2025

SIMI VALLEY, CA - November 05, 2025 -

All In Solutions California, a premier addiction treatment center, has expanded its comprehensive family support services by introducing a virtual family forum designed to increase accessibility for families participating in the recovery process. The new telehealth-based program enables families across California to engage in therapeutic support sessions regardless of geographic distance or scheduling constraints.

"When family healing happens in real-time?even virtually?it empowers both clients and loved ones to move forward together with compassion," said Alexandra Foglia, Director of Family Program, DMFT. The virtual format maintains the therapeutic integrity of traditional family therapy sessions while eliminating common barriers such as travel time, work conflicts, and childcare concerns.

The weekly online group sessions are facilitated by licensed clinicians who guide participants through essential topics, including boundary setting, communication skills development, and family healing strategies. These structured sessions provide families with practical tools to support their loved ones while addressing

the complex dynamics that often accompany addiction within family systems.

The virtual family forum represents a significant enhancement to the treatment center's existing family therapy program, which has been integral to their evidence-based approach to addiction recovery. All In Solutions California in Simi Valley, CA recognized that while family involvement remains crucial to successful recovery outcomes, traditional in-person sessions often present logistical challenges for many families.

The program addresses the multifaceted impact of addiction on family systems, recognizing that recovery involves healing for the entire family unit. Sessions focus on rebuilding trust, establishing healthy communication patterns, and developing strategies for long-term recovery support. The virtual platform also allows for greater flexibility in session scheduling, accommodating families with varying availability throughout CA.

The treatment center emphasises the importance of adapting treatment services to meet evolving needs. The virtual family forum represents the company's commitment to removing barriers to family involvement in the recovery process. Family support significantly impacts treatment outcomes, and this platform ensures that geographic distance no longer limits participation.

The virtual forum complements the treatment center's existing array of services, including partial hospitalization, and intensive outpatient programs. By integrating virtual family support into their comprehensive treatment model, the center strengthens its holistic approach to addiction recovery.

Family therapy at All In Solutions California has consistently demonstrated positive outcomes for both clients in treatment and their family members. The virtual forum extends these benefits to a broader population, ensuring that distance or scheduling conflicts no longer prevent families from accessing critical support services. Participants can join sessions from the privacy of their homes, creating a comfortable environment that often facilitates more open communication.

All In Solutions California serves individuals throughout California struggling with substance use disorders and co-occurring mental health conditions. The treatment center specializes in personalized treatment plans that address each client's unique circumstances while incorporating evidence-based therapeutic modalities. Their specialty components include faith-based recovery options, trauma-focused treatment, and extensive alumni support programs designed to sustain long-term recovery success.
