

Mummy's Miracle Baby Skincare Launches All Natural Organic Baby Wash

July 13, 2021

Casselberry, Florida - July 13, 2021 - PRESSADVANTAGE -

Mummy's Miracle Baby Skincare, based in Casselberry, Florida, is pleased to announce the launch of their new Mummy's Miracle Moringa Body Wash & Baby Shampoo & Bubble Bath. It is an unscented, Organic 2in1 Shampoo and Baby Bath wash and is also tear-free. It is available on the company's website as an 8oz bottle.

This Baby Shampoo & Body Wash is made with a selection of organic, natural ingredients that are carefully combined to offer exceptional soothing properties for babies and young children with sensitive skin or minor skin or scalp conditions. Featuring organic moringa oil, the 2in1 baby wash has natural antiseptic and anti-inflammatory properties that help to heal skin and scalp conditions. For children suffering from cradle cap and dry scalp, the shampoo will be able to provide instant relief and long-term healing. The product features a unique Tear-Free Recipe for Babies and Children.

Although it can help heal a variety of skin conditions and moisturize a baby's skin, the tear-free recipe will also prevent burning if it goes in their eyes. It is an ideal product for babies and young children who are especially sensitive to chemicals, and it ensures that a parent can bathe their child without worrying about

irritation. Those interested in purchasing this product may [click here](#) to shop online.

The product is both anti-bacterial and anti-inflammatory. This is because the Mummy's Miracle Baby Shampoo and Wash is infused with Moringa oil that has anti-bacterial and inflammatory properties. It is gently formulated for dry, sensitive skin, and all skin types. The formulation is so gentle that it is fragrance-free, a fact that adds to its tear-free properties. The product contains only safe ingredients and is formulated by a loving mom. This shampoo and wash combination has no harmful or irritating ingredients and is guaranteed to be safe for babies, toddlers and kids. It serves as both a shampoo and body wash, so there is no need to buy separate bottles. Mummy's Miracle Baby Skincare promises to fully commit the company to each product that they formulate and if there are any issues or concerns, they will make sure to respond in a timely manner and assist in the best way they can.

The company is fast growing and has become the world's leading Natural Moringa based skincare company. There are many reasons to consider purchasing their products, with more information about their offerings available on their Mummy's Miracle Blogs. The company believes in a customer-centered shopping experience, which has always been their goal, and they take pride in the comprehensive policies that have put them in a league above and beyond their competition.

Mummy's Miracle Baby Skincare is owned (and founded) by Ify Chuke-Nwobi, JD, a "mumpreneur" mum to four miracles and a cancer survivor. She founded the company as an All Natural Baby Skincare formulated in 2010 soon after she discovered the beneficial qualities of Moringa, a tree found in Africa and parts of Asia. To quote the owner, "For years, I searched for a toxic-free skincare regimen for myself and my babies but found none. When I tried to find natural lotions made from natural ingredients that worked, I found a plethora of toxins and chemicals in most store bought baby oils, lotions and shampoos. These products left my kids' skin dry, causing eczema. I found that although most products on store shelves boast of having ingredients that are great for babies' skin, this was not always true. The ingredients in most of these products are harsh, hardly moisturizing, cause irritations, dry up the skin and are sometimes ingested by babies when they lick their skin."

All of Mummy's Miracle Baby Skincare products are made exclusively using all-natural ingredients. Their products contain the best Moringa seed oil there is, raw honey, shea butter and purified water as well as essential oils and vitamin E and so on, depending on each individual product. It is a true delight for baby's skin, and one that can be used completely guilt-free as it benefits the environment and the world as a whole. The company follows stringent standards and rules to ensure the products are completely all natural and free from any chemicals or other pollutants as well.
