

UC Yacht Charters Expands Caribbean Fleet with Nine New Luxury Vessels

November 04, 2025

November 04, 2025 -
UC Yacht Charters has expanded its curated collection of luxury vessels with the addition of nine new yachts, strengthening its position as a premier provider of all-inclusive private yacht charter experiences in the Caribbean. The expansion brings the company's fleet to include some of the most sought-after vessels available for charter in 2025 and 2026.

The newly added yachts?Liquid Sky, Omakase, Jans Felion, Viva La Vida, Reverie, Dream On, Kayachtic, Vivi, and SO?each bring distinctive design elements and amenities that align with the company's standards for luxury adventure charters. These additions enhance the range of options available to travelers seeking personalized experiences across Caribbean destinations, including the Virgin Islands, St. Martin & St. Barts, and The Grenadines.

"Each of these nine yachts was selected through our rigorous evaluation process that considers design excellence, guest comfort, onboard amenities, and crew performance," said Caitlin Rosko, Founder of UC

Yacht Charters. "This expansion allows us to accommodate a broader range of preferences while maintaining our commitment to offering only the finest vessels in the Caribbean."

The new additions feature varying capacities and configurations, from intimate vessels perfect for couples to larger yachts accommodating up to eight guests. Each yacht in the expanded collection includes professional crews, water sports equipment, and customized dining experiences crafted specifically for each charter party. The vessels represent diverse architectural styles and interior designs, from contemporary minimalist aesthetics to classic nautical elegance.

Caribbean catamaran charter experiences have grown increasingly popular among travelers seeking alternatives to traditional resort vacations. The expanded fleet positions the company to meet this growing demand while maintaining its selective approach to vessel curation. Unlike charter brokers who list hundreds of options, the company maintains a focused collection of approximately 25 yachts that meet its exacting standards.

"The addition of these nine yachts reflects the evolving preferences we're seeing in luxury travel," added Sara Nelson, Co-Founder. "Today's charter guests want more than just a beautiful yacht?they're looking for vessels that serve as platforms for adventure, relaxation, and memorable experiences with their travel companions."

The expansion comes as caribbean yacht charters continue to see increased interest from travelers planning trips for 2025 and 2026. The company's booking process involves personalized consultations to match clients with the ideal vessel based on their group size, preferred destinations, and desired activities. Once guests select their yacht, the company handles all logistics, including itinerary planning, provisioning, and coordination with the yacht's professional crew.

Based in Red Hook Plaza, UC Yacht Charters specializes in providing access to luxury yachts throughout the Caribbean region. The company distinguishes itself through its curated approach, offering what it describes as the top 25 all-inclusive luxury adventure yachts rather than an exhaustive list of every available vessel. This selective strategy aims to simplify the selection process for clients while ensuring consistent quality across its fleet. Discover UC Yacht Charters? curated fleet of all-inclusive luxury yacht charters in the Caribbean and start planning your personalized voyage at https://ucyachtcharters.com/the-collection/
