

Flexibility the Key to Dumpster Rental Rock Hill SC Company's Pricing

August 17, 2021

August 17, 2021 - PRESSADVANTAGE -

Rock Hill, South Carolina's On Point Dumpster Rental, LLC is a company that's known for being very customer-friendly. That is reflected in all aspects of this business including their flexible pricing. Something that those at the company realized early on was going to be necessary with the large variety of dumpster rental clientele that they serve. The company owner, Adam Truesdale, says, "When you serve the dumpster rental needs of contractors and residential & commercial customers, static pricing just does not work. This is because dumpster rental is not always a one-size-fits-all situation, so a customer should not be charged for something that they don't need. That's the reason why we offer different dumpster sizes in a variety of price packages. That way all of our customers can find the right size dumpster they require, in the time frame it's needed, for a price that's commensurate with that duration."

Truesdale went on to describe their pricing in more detail. He stated that they offer two different dumpster sizes and of course the larger size is priced higher than the smaller size. Their dumpster sizes include the smallest one which measures 7' x 14' x 4' and holds approximately 15-yards of junk, trash, or debris. The company's largest size dumpsters measure 14' x 8' x 5' and can hold approximately 20-yards of waste or other disposables. He says their price flexibility comes into play with the amount of time each dumpster is

rented for. The company owner gave as an example that their 15-yard dumpster can be rented for 1, 2, or 7-days and each time increase also comes with an extra amount of tonnage that can be hauled. On Point Dumpster Rental, LLC's larger 20-yard dumpster also offers price packages along the same lines. They are even flexible with extra tonnage and with extra time taken with a dumpster as they only charge a small additional fee if these happen. He added that their flexible price structure is laid out very clearly on their website which can be found at <https://www.onpointdumpsterrental.com/dumpster-rental-rock-hill-sc/>.

The company owner went on to say that all of their dumpsters are roll-on, roll-off type and are pulled on a trailer instead of riding on a big truck. That makes them much easier to place in a customer's yard exactly where that customer wants it. This is very convenient for the customer because they don't have to carry their junk and debris as far to load the dumpster up. Trailering a heavy dumpster also tends to be easier on a yard than going across it with a heavy dumpster on the back of an oversized wheel truck. This company also prides itself on keeping its dumpsters looking good with an occasional fresh coat of paint and they thoroughly spray them out after each use. He says that the types of trash they can haul away for customers include refrigerators, garbage, mattresses, construction debris, yard waste, appliances, e-waste, furniture, and even hot tubs.

Being customer-friendly has also led this company to be very well-reviewed by those that have used its services. Robin Raines stated, "We were moving and had 31 years of stuff! This company was so easy and convenient to schedule and work with. They parked the container near our shop and we just easily threw everything in there. They then picked up and now all our cleanup is done! What a wonderful company to work with." Rachel Robinson proclaimed, "On Point Dumpster Rental honored their agreement, were very friendly and easy to communicate with. I would definitely suggest them if you are Spring cleaning, remodeling, or just need to get rid of some junk. They were great!" These reviews were taken from On Point Dumpster Rental, LLC's Google Maps Business Listing where each review there rated the company a perfect 5 out of a possible 5-stars.

Truesdale went on to mention that their service area includes not only Rock Hill but all of York, Chester, Fort Mill, Clover, Richburg, Hickory Grove, Lake Wylie, and Sharon, South Carolina. Others close by to these areas can also usually be accommodated with a dumpster rental for a small extra fee. Those that are interested in learning more about the services this dumpster rental Rock Hill SC company offers can contact them by phone, email, or visit their above-mentioned website.
