

Forkserve Still Operational Amidst COVID-19 Sydney Lockdown

August 18, 2021

August 18, 2021 - PRESSADVANTAGE -

According to the recent report, the number of people infected with COVID-19 in New South Wales and the overall death toll has continued to rise. After 452 new cases, at least 50 reported reoccurring infections were spread among those under 40 years old, 75% of all active cases within NSW.

The Premier urges young adults who live within a local government area of concern to come forward for vaccinations if they haven't already done so yet as it can be fatal otherwise; especially considering how many residents don't know about this disease or its symptoms because most outbreaks have impacted younger populations before now. Despite this situation, Forkserve remains open to the public and maintains a safe environment for all by requiring masks, checking in with a QR code scanner upon entrance, following social distancing guidelines, and proper hygiene.

The management offers free quotes to all of their prospective and existing clients by contacting them through any means they choose, whether online or via a telephone call. They do repairs and other services such as selling both Used Forklift or New Forklift.

Different types and brands of forklifts to choose from including: All Terrain Forklifts, BT Forklifts, Crown Forklifts, Diesel Forklifts, Electric Forklifts, Enforcer Forklifts, Forklift Batteries, Gas Forklifts, Heli Forklifts, High Reach Forklifts, Jungheinrich Forklifts, Komatsu Forklifts, Mitsubishi Forklifts, Nichiyu Forklifts, Nissan Forklifts, Raymond Forklifts, Toyota Forklifts, Yale Forklifts.

For more information about their products and services, their webpage is available for browsing any time of day to help answer questions or supply any additional details.

The management encourages customers who are thinking twice before coming into a store to contact them first with any enquiries they may have.

The Premier said that in the last 24 hours, there had been 151,000 tests. The total number of deaths since

day one of this pandemic has reached 113. The state's latest death was a woman in her 70s who died at Westmead Hospital. The patient tested positive on July 29th, had not received any doses of a COVID-19 vaccine and succumbed to complications this week.

The management encourages everybody to come to their office or warehouse to buy what they needed. Forkserve is open from Mondays to Fridays, and Saturdays is by appointment only.
