

Florida Attorney Launches New Flood Damage Claim Services

March 18, 2016

March 18, 2016 -
Arnesen Webb, a law firm in Boca Raton, Florida, has announced a new suite of services for flood damage victims. The flood damage attorney will now assist clients in filing flood damage insurance claims, and ensuring that those claims are satisfied.

Jay Arnesen from the law firm states, "Homes and businesses often sustain considerable damage during floods, and many people don't understand the process of filing a claim. We aim to help our clients ensure that they do not lose potentially thousands of dollars when they incur flood damage."

The firm Arnesen Webb, P.A., has indicated that there are a number of instances of flooding that actually may not be covered under a home or business owner's policy, which could result in the individual having to pay out of pocket for repairs caused by flooding. Jay Arnesen explains, "If the flood is caused by an excessive rain storm, that particular flooding may not be covered under a traditional flood policy."

Arnesen also pointed out that home and business owners need to be aware of what their policies cover and what they may be expected to pay for themselves. Things like plumbing failures, bursting pipes, and roof leaks are often covered, although some extreme cases may be exceptions. The attorney states that many home and business owners have found themselves without the coverage that they needed to pay for repairs when sudden and fierce rainstorms caused flooding damage.

It is essential, according to the firm, that home and business owner policies be thoroughly checked to determine what insurance companies will cover with regards to damages caused by flooding. The firm says that potentially thousands of dollars could be at stake when flooding occurs, if a policy does not cover all possible causes of damage.

The attorney also states that improperly filing claims could result in those claims not being paid. They urge policy holders to contact them in the event of flood damage to ensure that their claims are filed properly and that payment is received. Those interested can contact the attorney through their official website at http://insurancelawyers.org/contact/ for more information about filing a claim or challenging a claim denial.
