September 16, 2021 - PRESSADVANTAGE -

Santa Cruz, California ? A company that outdoes itself to satisfy its clients, Santa Cruz Tree Service Experts has revealed that all its efforts always get maximum results. In a recent press interview, the company?s CEO reported that 99 clients of every 100 clients the company serves always come back for more tree care procedures. This number is bigger than any of the customer return rates celebrated by other tree service providers in Santa Cruz and neighborhoods like Interlaken, Rio del Mar, Soquel, Boulder Creek, Felton, Aptos, Watsonville, Capitola, and Scotts Valley.

?I am not going to lie saying that it has been easy to get 99% of our clients to keep coming back for more services,? said the company?s CEO. ?This level of success takes hard work. It takes putting more effort than the clients expect and then charging a very affordable price for all tree care procedures.?

Santa Cruz Tree Service Experts CEO noted that these results start with its team of tree cutting professionals Santa Cruz. He noted that the team is very passionate about tree care, something that has always allowed

the company to be open to challenging procedures.

“While another tree trimming team Santa Cruz may decide to not handle a procedure just because the tree is standing between utilities,” said the company’s CEO. “Our team takes this complicated procedure as an opportunity to show off our expertise. Using our modern machines that range from bucket trucks to tools that help us slowly bring down the cut branches without harming the utilities, we can complete procedures like these without harming our clients’ properties.”

The CEO noted that the company has managed to hold on to the title of the best tree removal company Santa Cruz by bringing down trees over 200 feet tall without breaking a sweat or causing harm to houses or powerlines nearby.

“And that is not all that we do,” said the company’s chief of field operations. “We work on a 24/7 basis to ensure that our customers do not have damaged trees leaning dangerously over their houses and threatening to fall. Over the years, we have handled emergency tree service Santa Cruz in the middle of the night. And we always do this at very affordable prices.”
