MD Junk Removal Specialist Now Working With Damascus Customers

October 12, 2021

October 12, 2021 - PRESSADVANTAGE -

MD based GST Services is pleased to offer their junk removal services to customers in Damascus and the surrounding areas. The company serves both commercial and residential customers, and they are eager to help their community get rid of their unwanted items or junk in a swift, responsible manner. Those who wish to work with a professional junk removal service in Damascus are welcome to contact the company today to schedule their next pickup. The team is available around the clock.

The team at GST Services is particularly adept at residential estate and home sale cleanouts, and their team can coordinate equally well with homeowners as well as real estate agents when required. Customers who enlist the company's assistance are also provided a junk removal specialist who can take their individual needs into account when determining the best course of action for junk removal and hauling. Due to the company's vast experience in the field, customers can rely on them to handle all manner of junk from virtually any kind of house, and no job is too big or too small. They are also able to minimize damage to the property as they retrieve junk from a room, be it the attic or basement.

GST Services believes in upholding a high standard of customer service and convenience at all times, and this is reflected in every facet of their operations. For instance, while customers may visit the company's official website today to book their services, this feature is often provided by most junk removal services. However, what sets GST apart is the fact that their website also includes an intuitive, accessible and interactive cost estimate calculator that can help illustrate how much they should expect to spend on a single job.

This junk calculator functions on both a broad and item-by-item basis, allowing users to choose between a quick estimate or a more careful calculation. Here, the company adds that customers should remember that the number they receive from the calculator is not final. While it is designed to be as accurate as possible, the final estimate will be provided by one of the company's specialists. Fortunately, this is still a no-obligation estimate that is provided well before any junk removal services are rendered, so the customer need not be concerned.

Emily J. shares that they contracted the company's services for construction waste removal in their top-rated Google review. The review explains, "I'm so impressed with these guys! Communication from George was fantastic. He got us on the schedule the very next day after I called him. He updated me that day with precise arrival times. And his two workmen worked incredibly fast with moving the construction debris from our yard. I will definitely use them again in the future!"

A similarly enthusiastic review from Shaun Ruiz praises the company for their professional conduct, high quality services and ability to stay within schedule at all times. Also awarding the company a full 5-Star rating for their work, the review says, "I rented a dumpster from GST for seven days, and George Tatakis was awesome to work with! The dumpster looked pretty good in the driveway too ? check out the pic. GST is punctual, friendly and affordable. George and GST Services left a great impression and come highly recommended in my book. Like the other review said, definitely keeping their number handy." The picture the customer refers to can be found on the company's Google profile, along with positive feedback from other members of the community they have helped.

GST Services is a family owned-and-operated company, and customers can always expect to reach the owner, George Tatakis, directly when they get in touch. Since Tatakis is personally involved in the company's daily activities, he is able to ensure that all of his customers' concerns are dealt with appropriately and promptly.

Customers are welcome to contact George Tatakis for assistance with their Damascus junk removal project.

Alternatively, they may visit the company's website to request an estimate or calculate the cost of a potential job at their convenience. GST Services can also be reached through their social media platforms.
