Bluffton, SC - Residents of Hilton Head, South Carolina, can now experience the innovative technique from Russia called Brow Lamination. All thanks to brow and lash expert, Lashes n' more.

Brow lamination by Lashes n' More is a cutting-edge technology swiftly gaining popularity in the United States. Brow lamination, also known as eyebrow perm, smooths out unruly or thinning brow hair while elevating it upwards in a more vertical position. Brow lamination offers incredibly smooth brows, looking like they were filled in with brow gel.

The brow lamination process starts with a consultation with a brow expert. During a consultation, brow mapping is done to determine the client's ideal brow style. After that, brow professionals can perform the procedure. Lashes n' more provides expert brow laminations in Hilton Head, SC, which offers long-lasting results and keeps brows looking fabulous every day.

We understand how vital well-groomed brows are when trying to put together a great face, which may explain why we're one of the best brow grooming services in town. So give us a call for all your brow

lamination needs,? says Lashes n? more.

Lashes n? more owner Irina Rudman performs the brow lamination in Hilton Head SC procedure. She was born and raised in Russia and took her first lashing course there. ?I am constantly improving, taking classes on the trendiest lash looks from Russia, where volume lashes originated,? she says.
