# Exclusivelyhybrid.com Receives Another 5-Star Customer Review, "Toyota Prius and Hybrid Car Exclusive Mechanic"

*April 08, 2016*

April 08, 2016 -

Exclusivelyhybrid.com's owner and founder, Alex Valler, believers that offering hybrid car repair and battery replacement services was essential for a market where hybrid car owners needed cheaper and better quality services. He understood how most car dealerships offer more expensive rates for hybrid cars and battery repair services. It is from this premise that Exclusively Hybrid was established.

?We know the popularity of hybrids is going to increase and we will be ready to help the owners, who will all eventually need assistance with the replacement or repair of their hybrid batteries,? says Alex Valler.

Beyond offering hybrid battery reconditioning and replacement services for Toyota, Honda, and Lexus, Exclusively Hybrid also specializes in hybrid vehicle repair and offers other services ranging from hybrid battery testing, brake system flush, and coolant system flush to other preventive maintenance services. They pride themselves in their expert knowledge and necessary specialized tools to perform repair and maintenance services for different hybrid vehicles. They have also been offering Toyota Prius and Hybrid Car Exclusive Mechanic services to their clients, making them a one-stop center for various hybrid vehicle

maintenance needs.

Their variety of maintenance packages comes with free hybrid battery testing as well. Exclusively Hybrid understands the importance of maintaining hybrid vehicles according to manufacturer specifications to ensure that these are able to last for long periods of time.

These various options have allowed them to expand their influence throughout the Florida market, allowing more customers to try out their services for the first time and turning them into valued and loyal clients as well.

Many of their customers have given them 5-star reviews, like that of Jim R. of West Palm beach, FL who says, ?As an independent CAR DEALER specializing in Toyota Prius, I'm very happy to find a mechanic focused exclusively on HYBRID vehicles. Alex correctly diagnosed the problem over the phone, got me in touch with a good towing company and had the battery fixed in a short time. Despite Prius being an extremely reliable car, failures happen every now and then, and when it does, I know who to call now. THANKS Alex!?

Getting in touch with Exclusively Hybrid?s team of experts for your hybrid vehicle repair and maintenance needs is easy. Book an appointment through their website or call directly through the contact information below.
